EDITORIAL

This month we are heavy on the UFO side... as per usual I hear you say. I guess that's why you keep with us. We have had a media frenzy month or three here at Truthseekers. I have been busy with helping promote a new book by Larry Warren and Peter Robbins on the Bentwaters UFO incidents of 1980 called *Left at East Gate*. This involved going with the pair to radio interviews and arranging a 2 hour phone in slot for them on Talk Radio.

I am soon due to do a 2 hour slot myself on government cover-ups. Listen out on James Whales show on 1053 or 1089 medium wave at 11pm weekdays.

I have also been busy with getting publicity going for the next BUFORA conference. This takes place in August and has such speakers in the line up as Derrel Sims and Larry Warren & Peter Robbins. I would suggest this conference over many others this year. We also put on a Truthseekers Cardiff lecture for Larry & Peter and this has now opened the door for future lectures. Some lectures may be short notice so you will have to register with us if you wish to receive notice of the Cardiff lectures.

In this months edition we have

some ground breaking news about the Public Records Office and a missing file which tracks 7 secret government departments in their previously unknown UFO investigations.

We have a full write up of the Fife Incident where a family witnessed a close encounter with an alien craft and it's occupants. These strange events did not stop there for the family seemed to bring some of their strangeness home with them when their son started to talk of seeing aliens in the house, whilst not knowing about the events the others had seen.

We have an interesting article on UFO files which are starting to be released by the Spanish government. Richard Conway investigates and translates these articles for us in a Truthseekers exclusive, along with showing us some of the UFOs in photo form.

Myself and Daryl Smith went to Rudloe Manor recently and ended up coming back with some amazing photographs of an underground facility called the Corsham Computer Centre. Some of these photos have never been seen anywhere else.

We also discover that due to an apparent loophole anyone can visit the bunker without

fear of arrest.

Doctor Colin Ridyard contributes with an article on scientific analysis of the UFO phenomenon. Doctor Ridyard, with his reputation in the world of Chemistry, has certainly turned heads by coming over to the side of UFO investigators.

John Hurst explores the world of contactees and some of the information they gather in his regular spot. Jonathan has also started a Yorkshire office of Truthseekers. We wish good luck to Jonathan!

I would also like to send a message to anonymous writer "THE EBON FOX". Please write again with your address as I wish to address the points you raise. I would like to put your points across in a readers reply page but I feel they may offend an innocent party. It would seem also that you have some interesting things to tell us yourself. Please write us some articles!

Hope you enjoy this edition of the magazine. Please tell your friends about us and please contact us if you wish to start a Truthseekers Group in your area.

The four Truthseekers groups operating at the moment are YORKSHIRE, CARDIFF, NORTHAMPTON & DEVISES.

Scotlands Best Kept Secrets

The Fife Files

A REPORT BY MALCOLM ROBINSON.

PREFACE: Ufology can throw up some pretty challenging cases, and many investigators world- wide have seen how vastly perplexing this subject can be. High strangeness cases are on the increase, but what exactly does this tell us ? Here in Scotland, recent cases would suggest that strange things are still afoot. Not only has there been photographic and video evidence of late, but we have had a few CE IV or close proximity cases, with witnesses claiming encounters with small, grey 'alien' beings.

The following case, to all intents and purposes, is quite staggering. It borders on the unbelievable and even for this researcher was quite hard to accept.

But having said that, one must realise that we live in a strange world with many mysteries which currently tax our minds. It would be foolish to turn our backs on these mysteries just because they sound absurd. The following case features elements both common and uncommon. It was initially featured in the English based QUEST INTERNATIONAL publication, "UFO MAGAZINE".

I would now like to present Strange Phenomena Investigations' research into this most fascinating case, but before I do so, I would like to inform the reader that after this case was featured in UFO MAGAZINE, all witnesses refused any more interviews with Scottish or English researchers. They have told their story and now wish to get on with their lives. We at SPI accept this decision, as it is becoming more and more common with cases of this nature. Thankfully, SPI managed to interview two of the four witnesses in this case, and what you are about to read is the culmination and extracts of a most fascinating audio- taped interview. THE FIFE EVENT, 23rd SEPTEMBER 1996. SPI learned of this event a few weeks after it had occurred, and in a telephone call to one of the witnesses, we arranged a date and time to visit and interview. Malcolm Robinson,

accompanied by Billy Devlin and Garry Wood, travelled up by cars to where Mrs Mary Morrison (pseudonym) lived, an area of Fife in Central Scotland. The area itself is covered by farmland and there are many small farms secluded about the landscape. The area is therefore not heavily populated, and the contours of the land rise and fall at different locations. After getting lost, we eventually found Mrs Morrison's farm and introduced ourselves to her. We found her to be a warm and pleasant person and quite attractive. Her farm house actually sits on top of a hill which gives her a commanding and panoramic view of the Fife valley.

After our introductions, Mary then settled down to tell us quite an incredible tale. I sat back in my chair, and was amazed as this strange tale unfolded. This is what she had to tell SPI. A NIGHT TO REMEMBER ! On the evening of the 23rd of September 1996, Mary Morrison, accompanied by her ten year old son Peter and Mary's friend Jane, left her farmhouse home to travel to a nearby town to buy some coffee. The time was around 8:05 in the evening. On the way there, they observed a huge white stationary light in the sky, initially observed by Mary who was driving. Mary presumed that this light was either an aircraft or a helicopter, but after a few seconds realised that this was not the case, as the object was still not moving. This bright light then amazingly changed into two bright lights, at which point Mary said to her friend, "Look at those bright lights up there", to which her friend replied, "It must be an aeroplane."

Mary decided to stop the car and get out for a look, still thinking that perhaps it could be some form of aircraft. Everyone alighted from the car and stood next to the road, looking up in bewilderment at this strange spectacle in the sky, "This was weird," she said, but things took a turn for the worse when suddenly two massive bright spotlights illuminated the ground around them. Beams of light criss-crossed

one another in a spiralled dance which captivated all the witnesses. After a period of seconds, these huge bright white lights were switched off and Mary became aware of looking at a large black triangular shaped object. This object then proceeded to bank very gently and Mary then became aware of small red lights at each apex of this triangle, while a brighter light source (white) was obscured to them as this object slowly turned. As the object completed its turn, further small red lights were observed on its underside. No noise was associated with this object and there were no visible signs of any appendages. However, Mary did say that she saw on top of this triangle, a small dome. When asked by SPI how large this triangular- shaped object was, she replied that if she held her hand out in front of her, this object would still be bigger than her hand !

After a few moments, the object slowly and gradually moved or 'drifted' away. The feelings of all the witnesses were of amazement. They knew that what they had been looking at was not a normal man-made object. It proceeded to move away from them with only the faint red lights showing. At this point, Mary decided on the spur of the moment, to wave at this 'thing', and she was most surprised when this object flashed three times to them! She reckons that the total duration of this incident was around five minutes, and further stated that the corners of this triangular- shaped object were more round than pointed.

With the object now gone, they decided to get back into their car and continue on with their journey to collect a jar of coffee. It was on their return journey that they wondered if they would see this strange object again. No sooner had they thought about this when the same, or similar object was sighted in the sky, only this time it was travelling quickly in their direction. So quickly was this object coming towards them, that Mary's young son Peter started to cry, thinking perhaps that this object might hit their car. No sooner had Peter started to

cry, than this strange object shot back the way it came and was lost to view in seconds. BUT MORE WAS TO COME !

Another purchase that Mary had made in this local shop, apart from her coffee, was a UFO magazine which contained the phone number of Larry Dean, an investigator with research group SKYSEARCH. She left a message on his answerphone, stating that if there were any UFO investigators in her area, to get them out quickly, for something strange was going on. After making the phone call, they then related their strange sighting to Mary's friend's daughter Susan, aged 15. Susan was very sceptical and thought that this was one big wind-up. However, after a bit of persuasion, it was decided to once more go back outside and see if they could still see this object, never for one moment thinking that they would. Mary said to SPI that usually these things are only seen once in a life-time and she wasn't really prepared for what transpired next. But nonetheless, they all agreed (including young Peter who had earlier been crying) to go out and see if they could see it.

IT CAN'T BE, CAN IT ?

Travelling out in the direction of their earlier sighting, they did not see the same object again, but what they did see was what looked like stars sparkling in the night sky but only much, much lower. "There were hundreds of them," she said. She couldn't for the life of her fathom out what they were, but they were beautiful. It was at this point that things started to get 'strange' and the following information may prove, at least to the hard-nosed sceptic, difficult to believe. But this is what they said happened next.

All four witnesses were startled to see a tremendously bright, white light on the ground beside a group of trees which were at the other side of a ploughed field. Their initial thought was that this might be a bright security light attached to a building. However, they soon noticed a bright glow over some trees, an immense bright blue glow which actually shone up from the bottom of the trees into the dark night sky. They likened it to a bright searchlight as it continued its spinning movements up and

out of this grouped range of trees. In an effort to get closer to this amazing spectacle, they decided to get back into the car and travel down a little back road. This they did, and they continued to view the strange spectacle. A sense of non-reality was in the air, when suddenly the bright, blue, spinning light was joined by other bright lights, red and green. Mary likened them this time to a laser light show. "They really were lovely," she said. "We were all moved to tears by them". It was at this point that events took a

somehow in charge - this she strongly felt.

Indeed at one point, the large 'being' actually stretched down towards the ground and opened his right hand to 'something,' stood up, moved back into the trees a bit, then took up the same position as before. In the sky around this amazing spectacle, were hundreds upon hundreds of these small star-like 'things' which were just hanging in the sky. Suddenly a bright beam of light shone down from the sky and illuminated the road in front of them.

Mary related to SPI, that as soon as this 'light beam' hit the ground, her memory of events becomes sketchy, but she believes that they all took a fright to this light, and jumped back into the car and headed off to her friend's house. Indeed this is what did happen (at some point !). It was at her friend's house that she decided to phone Larry Dean again and inform him about what had happened. Larry was home and suggested to Mary that she should contact Malcolm Robinson of SPI. He then gave out the number but unfortunately when Mary tried it, she found much to her disappointment that the line was discontinued (Malcolm Robinson had moved house). She again phoned Larry, who this time put her in touch with Tony Dodd of UFO MAGAZINE.

THE THIRD SIGHTING.

It was at Jane's house that Mary spoke to Jane's husband about what had transpired. Unfortunately he had to go to

work, but offered them the use of his binoculars. With these, the intrepid witnesses decided once more to go out into the dark night and see if there was any more evidence of these strange objects and 'beings'. One would imagine any other witnesses as being too frightened to again venture out into the night, but curiosity was the major factor here, and although slightly fearful they just had to find out more. Would they see anything more, or would the area be as dark as it usually was on a crisp September evening ?

Well, they didn't have to wait long. As they travelled in the direction of the earlier sighting, they again saw many of those

dramatic turn, for whilst they were all captivated by these spinning lights, Mary suddenly became aware of 'figures' silhouetted in these lights, small grey figures who were running around and appeared to be very busy picking up what looked like boxes or cubes, and also cylinders or canisters. Further back in the woods, she said that she saw some form of triangular 'structure' out of which these small 'beings' were coming and going. But what really surprised Mary the most was the sight of a very large 'being' who was a different colour from the rest. The 'being', she said, was a sort of tan brown. 'He' was standing a short distance away from the rest of these 'beings,' as if he were

strange star shapes in the sky. Also observed near a transmitter on a hill, was another immensely bright, white light which was flashing in a sequence of three! They continued on with their journey and this flashing light was lost to view. At this point Mary started to become more alarmed. She felt that as these were narrow country roads, she didn't really want to get trapped here. The excitement of the initial events was now changing to fear, but she didn't want to show this in front of the others.

They stopped the car and proceeded to look up into the night sky with the borrowed binoculars. Jane, who was at this point holding the binoculars, thought she was looking at a star. Mary replied that "this was not a star" and quickly took the binoculars from her friend and directed them to the object. Mary stated to SPI that what she had seen resembled a 'squashed ball', elongated from top to bottom. It was a hot, fiery orange colour with big irregular indentations in it. "It looked really shimmery", she said, "as if it was giving off energy." "This thing", she said, "wasn't on the ground, but it was near the ground". Near the base of this 'squashed ball' was something like a wiggly, long, oval black spot. It was moving slowly and was tilting on its axis. To the right of that, and all around, was a small, orangey light, very round and very small.

The scene once more changed, and they again all witnessed these small 'beings' in the woods, who seemed to be supervised somehow by this tall brown 'being'. SPI asked Mary how tall she thought this 'being' was, and she replied, "Oh, at least half the size of the trees" !!

The time of this third visit was roughly around 11:30pm, and during all of these observations, no noise at all could be heard, except when Mary directed the binoculars onto that strange 'squashed ball'. Then she thought she heard a crackle, something like an electrical crackle. Another unusual statement that Mary relayed to SPI, was that after using the binoculars to view these strange sights, she could see just as well without them. She can't for the life of her understand how, because she said that these binoculars were so bad that it was a wonder at all you could see anything out of them. SPI asked Mary if she saw what could be termed fingers on any of these 'beings', to which she replied, "No," but went on to say that this large, brown, tanned being had a very large bulbous head with a very flat face. When we asked Mary about how these smaller 'beings' moved in the woods as they carried these boxes, she stated that they moved just like any normal person would move. "They were bending at the waist."--very naturalally. There was no struggle as

these 'beings' lifted the boxes and cylinders. They were lifting them quite easily. The cylinders or canisters, Mary went on to say, were being carried by these small 'beings' lengthwise in their arms. No markings could be discerned on any of the boxes or cylinders. Susan and Peter, daughter and son of both women, also stated that they could see these strange 'beings' in the woods close up, just as well as if they were almost there, an effect that they should not have experienced at that distance!

"THEY ARE COMING OUT OF THE WOODS" !!

However, the most frightening part of the whole night was to come on this third visit, for whilst they were all again looking at this strange spectacle in the woods, of lots and lots of small grey 'beings' busily running around, Jane screamed out, "Oh my God, they are coming out of the woods. There is a mist coming towards us. My God, there is a cocoon. There are hundreds of them, and they are in these things". Susan also screamed, "They are coming towards us. They are moving so fast." Mary was by now becoming increasingly alarmed, and she couldn't understand how it was so light at the edge of this field. She could even see the straw bales which she wouldn't have normally seen, had it been pitch dark. The next sensation or impression that Mary had, was of these huge straw bales crowding across the road from them, and she could sense a being at the passenger side of the car, at the window. At this point Mary's friend said, "Let's get the hell out of here," followed by Susan who shouted, "There is one standing grinning at me".

Mary then slammed the car into first gear, then second and third and soon realised that she was doing 55 miles per hour, at which point she thought it better to slow down as she didn't want to end up losing control of the car. The other passengers in the car looked back out of the rear window and claimed that the whole field 'lit up' in an enormous blue flash. They eventually arrived back at Jane's house and stayed up most of the night extremely shocked and amazed.

FURTHER RECOLLECTIONS.

I (Malcolm Robinson) asked Mary about this mist that was coming towards her car just before they fled, and she told me that she herself didn't see this mist, but her friend described it as looking very fibrous, like a cocoon, and all these small 'beings' were being carried in it towards their car, their legs never moving. The

orange light that they all saw earlier also contained 'beings', although Mary claims that surprisingly she didn't see them, but all the others did. SPI ascertained that they arrived back at Jane's house roughly around 00:30am. Mary had the distinct impression that she had watched this amazing spectacle for much longer than the actual time that had transpired, indeed on one occasion, whilst sitting in the car and watching all these small 'beings' moving around in the woods, she felt the distinct impression that (although she was in a sitting position in the driver's seat), she was being pushed back into a lying position, with someone or something holding her head. She didn't mention this sensation to the others, for she didn't want to alarm them.

UNUSUAL MARKINGS FOUND ON THE WITNESSES' BODIES'.

She said that researcher Tony Dodd from UFO MAGAZINE had suggested that she look out for unusual marks. That first day as far as she knew, she had none. It was a few days after that when she learned about her friend's daughter, Susan. She had found a strange mark on her shoulder, "as if the blood had been sucked up through the skin". This mark resembled two small vertical bars, side by side, separated only by a small space. Jane, Mary's friend, ended up initially with two marks on her body, one was on her right buttock, like a very pale brown birth mark, and the other one was found underneath her right breast on her ribs.

Mary informed SPI, that although she hadn't noticed any marks on her body, she was getting extreme discomfort from underneath her arm, at the top where it joins the body (right shoulder). There was no visible mark, but it was very painful to touch. Her son Peter had no marks at all. A few days later, Jane found another mark which appeared on her right shoulder. This consisted of a brown discoloration, blotchy and irregular around the edges. Susan, Jane's daughter, then found another mark, this time on her right shoulder. It was about 4 inches long and appeared roughly around a week after the main sighting. The week after the event (Monday the 30th), Jane found on the top of her right thigh, an immense bruise, a very colourful bruise. SPI asked Mary if she or the others had experienced any headaches or strange tastes in their mouths after the incident. She replied that they had not, but individually they were all very stressed-out by the whole incident.

THE INCIDENT IN THE BATHROOM.

On Sunday the 20th of October (a month after the sighting), one of Mary's friends, along with her son, came to visit. She was leaving her son with Mary as she was going away on a weekend visit. Soon her son and young Peter were playing happily in his bedroom. However, things were soon to change, for a short while later as Peter looked out of his bedroom window, he was surprised to see a small 'white being' with lots of teeth, looking straight at him. This 'being' was free floating and was not standing on top of the kitchen roof. He was too small for this. After a few moments, the 'being' just simply floated straight upwards with ease and was gone in seconds. According to Peter, his friend also saw this strange 'being'. Later on that same night, Mary was on the phone to Garry Wood, a researcher and himself UFO experiencer. Just prior to the phone call, Mary had run a bath for her son. Mary was explaining to Garry about some recent strange events when all of a sudden she heard her son screaming at the top of his voice, "Mummy, Mummy! Come quick, please come quick." Mary immediately threw the phone down in mid-conversation and dashed up the stairs three at a time.

She entered the bathroom and found her son in some distress. After calming him down, he explained that as he had entered the bathroom, he saw a small white 'being' standing next to the wash hand basin and bath. This 'being' also had a row of teeth, was small and thin and looked very pale. After Peter had screamed, this 'being' just simply vanished !! Mary had to eventually sit outside the bathroom door to let her son have his bath. Indeed, he was still so frightened, that she had to sleep beside her son with the bedroom light left on the whole night.

SPI QUESTIONS YOUNG PETER.

Obviously, when one is dealing with young children in cases such as this, one must be very careful. Questions have to be asked gingerly and in a manner understood by the child. I, with the blessing of his mother, then proceeded at this point in our investigation to ask young Peter some questions in regard to these 'beings' that he said he saw. I first of all asked Peter if this first white 'being' that he saw outside his bedroom window whilst he was playing with his friend, could be seen by them both. He replied, "Yes". I then asked Peter what exactly did this 'being' look like ? Peter replied that he was small, he had an egg-shaped head, with lots of sharp teeth in his mouth. He had oval- shaped eyes and was very white looking. One thing I found most peculiar in Peter's testimony (apart from the row of jagged teeth) was when Peter

referred to seeing an unusual 'flap of skin' which he saw on this 'being' between the elbow and forearm. This 'being' was also muscular, according to Peter, and there was no sign of any facial or body hair.

GREY 'BEING' AT SCHOOL.

Dealing in cases such as this, one sometimes stumbles across pieces of information which can be incredible and hard to believe, but because information can sound fantastic, does this mean that there is no truth in it ? Well, what you are now about to read, truly does sound fantastic and one can be forgiven for thinking that it is all a load of nonsense dreamed up in a young child's mind. However, it would be wrong of me to keep this information out of this case just because it sounds ridiculous, so here it is, for what it is worth.

At this point during our interview with Mary, Billy Devlin turned his attention back to her son Peter and proceeded to ask questions about Peter and his school. The following information is taken straight from our audio- taped interview.

Billy Devlin asked, "Has anything happened to you at your school?" Peter replied, "There was a green one, a brown one, and a huge white one at school in the classroom. These ones did not have any teeth. The grey one was holding the top of my pencil, showing me what number to write". Billy then asked, "Did you say anything to your pals?" To which Peter replied, "No". Malcolm then asked, "Were you frightened?" Peter again replied, "No". Malcolm then asked, "Did he speak to you or try to tell you something?" "No," was Peter's reply.

Billy queried, "Why were you not frightened of that one?" Whereupon Peter quickly said, "Because he was helping me." (Peter's tone of voice was as if we should have known this !) Billy then said, "But surely he didn't appear just holding your pencil?", to which Peter replied, "He came in the same time as me". Garry Wood then said, "Do you think he knew you ? Peter answered, "Don't know, he might have known me."

Billy then asked, "Was he with you before you went to school?", to which Peter answered, "He was in my room before I woke up, standing near the bed". Billy went on, "So you got up, got dressed, went downstairs. Did he follow you downstairs?" Peter nodded his head in a yes motion. Billy went on, "Was he there when you were eating your breakfast?" Peter replied, "Yes, he was still standing"

Garry Wood at this point spoke up and asked, "Did you not go and tell your Mum?", to which he replied, "No, she's pretty scared of these things". Malcolm then asked, "Peter, how tall or short was he?" Peter answered, "He was about the same size as me".

Billy Devlin then came in and said, "So he followed you all through that day and helped you with your homework. Where did he go after that?" Peter then said, "He went through the wall". Billy asked, "Did he not say cheerio or anything before he went?" Peter replied, "No, he just turned round and walked through the wall"

SPI also learned at this point during our discussion with Peter, that this strange 'creature' also shared his taxi on the way to school ! He' also shared it on the way back! I asked Peter if, by the help of his unseen friend, he had got his sums or school project correct, to which he replied that as yet he didn't know. I also asked Peter if he felt that his 'unseen friend' was helpful in any way. A resounding "yes" was Peter's reply. SPI learned that this 'creature' had also assisted Peter with another classroom project that day, a project which concerned tissue paper (yellow and orange) to represent flames. The project was concerning the Great Fire of London. Apparently this 'creature' had shown Peter how to cut out his tissue shapes.

It was apparent to me, that due to Peter's close proximity to his 'unseen friend,' he surely must have been able to observe many features of this small creature, and so I endeavoured to ask him about how many fingers this 'creature' had. Peter replied that he had three on each hand. I then asked if they were long and thin, fat or short, to which he said that they were long and thin and did not have any nails. I then asked Peter if he noticed any lines on 'his' hand, perhaps near the knuckles. Peter nodded yes. I then asked, "Did you notice any veins in his hand?", to which Peter murmured, "No". Garry Wood then asked, "Was 'his' hand warm or cold?", to which Peter replied, "Cold". Malcolm then asked, "Did this small 'creature' have the fold of skin that you observed with another small 'creature' ?" Peter replied, "No". Billy Devlin then asked, "Was 'he' there when you woke up the next day?" Peter replied in the affirmative.

ALIENS AT THE WINDOW.

If the reader finds the above hard to believe, then some might find the following even harder to swallow. But like I mentioned earlier, SPI must present all the facts, no matter how bizarre they may seem.

It would be wrong to leave certain parts out of a case report purely because some might find them nonsensical. I would also like to point out before I continue, that we must remember that the paranormal is full of reports of young children witnessing all kinds of unusual phenomena. Some have had what is termed as imaginary playmates, but as children grow older, they seem to lose this psychic faculty. Was this the case with young Peter? At this point in our interview there was a lull in the conversation. This was broken by young Peter who then said, "Why don't you ask them what you want. There are three of them standing over there". (Peter was pointing towards the living room window). Both Billy Devlin and I, as well as Garry Wood, immediately turned our heads in the direction in which Peter was pointing. Whilst doing so, we also grabbed our cameras. Sadly, although we were all looking intently, we didn't see a thing. Nonetheless, both Billy and I took many photographs of this area. I asked Peter what they were doing, what they were saying, to which he replied, "They are just looking. I think they have been with me all my life. I've seen shimmering all my life". Billy then asked, "How do you know they are aliens?", to which Peter replied, "Because they look like them", at which Billy continued, "Like aliens in the magazines and books?" "Yes," replied Peter. At this point I asked Peter to point again to where these three 'aliens' were standing. When he did so, both Billy and I moved right into where they were located, again taking further photographs. Peter said that he sometimes felt cold as he 'walked through them.' However, I never felt anything as I moved my body in and around where Peter said that these three 'aliens' were standing. Billy had taken several Polaroid photographs of this spot, but nothing unusual had come up on them. I asked Peter what was happening now, now that we were more or less standing amongst them, and he mentioned that he could see a series of white zigzag lines in the area where these 'aliens' were standing (again unseen by the rest of us). Malcolm then asked Peter if they could move anything in the room. Could they move Billy's pen for instance? Peter replied "I don't know. You might want to ask them yourself" ! I laughed, but then said, "If there is anybody here with us, could they please move this pen (referring to Billy's pen in front of me). I then jokingly said, "I'll be the first out of this room if the pen moves." The pen didn't move.

At this point in the proceedings, I was intently looking at Mary to see if she was perhaps in embarrassment at her son saying that he could see three 'aliens' in her living room. However her face was impassive. Indeed I asked her if she could see anything

in front of the living room window. She replied that all she could see was a shimmering effect. She knew that if she concentrated hard enough, these 'creatures' would come through, but she didn't want this. She has also seen this shimmering effect on a number of other occasions since the stated event. She likens it to a heat haze, that shimmering effect that you see above a road on a hot sunny day. SPI also learned that the night Mary had stayed with her friend, (the night of the incident), Mary kept sitting up in bed and throwing off the top quilt from the bed. This went on for around twenty minutes to half an hour. Mary then explained to SPI that the muscle on her right arm was very painful, and was very swollen some days after the incident.

STRANGE DREAMS.

Malcolm then asked Mary if she had had any strange dreams after the incident, to which she replied that there had been one or two, some with sexual overtones. She remembers walking through various corridors, whereupon she saw a black door. She was being accompanied by a 'male' person. There was a short corridor and a marble sort of floor, and there were black doors and silvery walls. She got to the end and saw a ladder which she proceeded to climb. This led her out through a hatch, where she saw an outdoor scene, which she describes as a grassy hill or bank. A 'saucer' was sitting on the grass, which was odd, she thought. Then she had the impression of a 'male' person doing something to her neck. This male person explained that she might experience a very strange sensation. Mary further explained to SPI that she has had strange dreams like this all her life! Mary also said, that a few days after her UFO sighting, she dreamt that she was on-board a 'craft'. She was unsure if it was a 'real dream' or bits and pieces of fragmented memory of a real event. She dreamt that she was in a room, a white room, and there were about half a dozen of these little grey ones in there. She thought she saw a black cupboard and bench in there. The roof appeared a darker grey, and it got lighter on the walls. She also saw a large chair, like an office chair without the arms, and there was a brown 'creature' sitting in it. This brown 'creature' turned to face Mary, and all the little ones were in front of her. She then said that she went over to the brown one and started feeling his arms. Mary's friend Jane said that she could also recall being in this 'craft', so Mary explained to SPI that she had spoken about her dream to her friend and asked her if the 'creature's' arm felt rough and warm, to which her friend said, "You were definitely in the 'craft'".

Mary said that this 'creature's' arm felt very textured, and looked very leathery.

ANOTHER TRIANGLE SIGHTING.

Mary also informed SPI that she again saw the 'black triangle' a week before our interview. She was going to visit a friend (Sharon Coul). The object was hovering above a field near Kennoway. She was at a higher vantage point so therefore this triangle was actually below her. She said that it displayed two big white front lights and also a red flashing light. It was only when she continued driving into town, that she began to lose sight of the object, although for a short time she said that she could see it between some buildings.

Mary also explained to SPI that she felt very nervous staying alone in the house. She is aware of things around her, especially this "shimmering", but she deliberately ignores it. On one occasion though, she decided to let this "shimmering effect" develop, and she said that she saw one of these 'faces' (typical grey alien face) come straight towards her, at which point she blanked it out. She also informed SPI that she sometimes sees something out of the corner of her eye, but when looking straight at it, it disappears.

Mary went on to inform SPI that in her house, she believes she has a ghost of a dog which sometimes runs by her (the family don't own a dog). A few weeks prior to our visit the family heard the sounds of this dog. The family cat shot straight out of the kitchen with eyes as wide as saucers and its tail all bristling out. Both Mary and her husband went into the kitchen, where they were both amazed to hear the sound of 'something' lapping out of the cat's water dish! Nothing could be seen.

CATS AND ALIENS !!

SPI asked Peter if the cats reacted to this ghostly dog and also these 'creatures'. Did they hiss, for instance? Peter replied that one of their two cats did indeed hiss at them, whilst the other cat was quite content when being stroked by one of these small 'creatures' !! Mary then explained that Domino, one of their cats, a little white one, sometimes went on the defensive on the occasions that she had seen this "shimmering" effect. Domino would react by hissing and spitting at this "shimmering". One question that Malcolm posed to Mary was a question about balls of light in her bedroom, which are sometimes seen by witnesses either prior to, or after, a UFO event. Had she seen any of these, I asked ? She replied that she had not.

After talking with Mary about these balls of light which she said that she hadn't experienced, she did recount the time when strange blue lights swooped into her bedroom. She initially thought that it must be emergency vehicles outside, like an ambulance or police car, but on looking out the window, no emergency vehicles were to be seen. These blue beams, Mary said, were coming into her bedroom from above and not from below (Mary's bedroom was on the second floor). Malcolm Robinson asked, "How thick were these blue beams that shot into your bedroom. Were they as thick as your arm"? "Oh yes," she replied. "These blue beams were straight and did not bend as they came into the room". Mary remembers feeling very uneasy about these blue beams and did what she felt was the correct action, she dived under the covers! This all happened when Mary stayed in a house in the village of Cupar in Fife back in 1986.

On another occasion when she stayed in Cupar, she had another unpleasant experience. One day as she went out to collect her washing, she felt a strange presence. She described it as 'horrendous', as if it was crushing her. She has never felt anything so malevolent in her life. By the time she had collected her washing and moved back indoors, she was so frightened that she dropped to her knees with the tears just streaming down her face. It took her all her time to lock the door. Her neighbours later told her that there was a strange presence, 'out the back'. There was nothing tangible that Mary could see, but she related that it was the sheer malevolence of this episode that completely terrified her. It was a feeling of complete and utter hatred.

Mary then explained to SPI that she has noticed that her son Peter has become more psychically aware over the past few months. And she remembers her son telling her that he had seen a ghost when he was younger, a white lady, seen in a cupboard in his room. He had been playing on his bedroom floor, said Mary, when all of a sudden a mist drifted out from beneath this cupboard then developed into the form of a 'white lady.' Mary also told the story that when Peter was younger, he had said to her that he could see a 'little man' in his room. Mary had heard the sound of 'someone' or 'something' walking up the stairs, but upon looking, nothing could be seen. On one occasion she had a cousin stay over, who, during the night, became very scared as he heard 'someone' moving about.

MORE QUESTIONS, MORE ANSWERS.

Garry Wood asked Mary about her

friend Jane, who was with her on the night in question. "How was she taking it?" Mary responded by saying that Jane was taking it better than she, that she had seen an awful lot more. Garry went on, "When you were looking at the UFO on the 23rd, did you feel that you were getting any communication from it?". Mary replied that she never got anything, she was just completely stunned.

At this point in the proceedings, I, Malcolm Robinson asked Mary, "Do you think that what you saw is the true image of these beings, or do you think that it is something else?". She replied that she didn't know. She felt that they were collecting things, taking samples. She then went on to say that at one of the sites where they saw these 'beings' (when they went back at a later date) there was a huge rock, like something that had come out of a stone building house. This had been moved from one area to another, very cleanly. And it was near this that Mary said that they had found an 'igloo thing'!

THE IGLOO.

Mary said that when she went back to this area, not only did she see this large rock, but she found an 'igloo thing', which was about three feet in height and was about the same diameter. It was beautifully constructed. Malcolm asked her if perhaps this might have been built by kids. She replied that it was really complex, really perfect. It was made out of weeds and grasses and things, but she couldn't recall seeing any twigs. This left her totally "gobsmacked".

STRANGE SMELL.

Mary then informed SPI about a strange smell that pervaded the family home some days after her UFO encounter. It was a horrible, burning, acrid smell which was all over the house. They couldn't account for it. It smelt like burnt paper she said. MONDAY 30th SEPTEMBER 1996.

Mary related to SPI about a strange event that had occurred on Monday the 30th of September (about a week after the initial big sighting). She said that she was driving up to her home when she observed what she termed as "a star" which came shooting over from the right and curved round, almost as though it was keeping parallel with her. She said that she then lost sight of it in the trees. She quickly went indoors and went upstairs and looked out of a window. She then caught sight of it again as it rose above tree level, and it just sat there twinkling. After a few

minutes, a little red light flew across and kept a certain distance from it, then the two of them moved together in tandem. She then lost sight of the red one, but continued to see the white one twinkling away, and then it started flashing in sequences of three (her son Peter was also witness to this). It was at this point that she started to see something 'flash' above her head. She looked up, and at the top of her bedroom window, she saw what she described as a "thing" come, oh so slowly, over the top of her house. To start off with, she said that it had two white lights that were flashing on and off at the same time, and the object just kept coming and coming. It was shaped like a cone, and it had a big white light in the centre, a small red light elsewhere, and another white light and possibly a further white light near the end of this cone, although she is not really sure about this. To the underside of this object, she described something like lumps or shapes which were attached. It reminded her of those small structures that she had seen on some of the "Star Wars" craft in the film of the same name. This was an amazing spectacle in a dark starry sky. The object kept coming slowly over the roof of her house and she noticed a further two more white lights. The whole thing was now shaped like a big rectangle. The four white lights on the corners were all flashing on and off at the same time. Eventually the object cleared her roof and headed off in the direction of where she had earlier seen that small red light, and then out in the direction of the North Sea. Mary went on to say that later that evening other aircraft showed up in the vicinity, but these, she said, were all normal aircraft. But it was the feeling of peace that she got whilst looking at this strange 'craft' that she has never been able to describe. She said she felt wonderfully happy, very calm and ecstatic. It was a tremendous feeling to see this object, a feeling which, she states, words cannot describe.

This feeling of peace stayed with Mary for quite a number of days. The Thursday of that same week, she and her husband saw another shape rise up from behind the trees. It started off with a blue glow, and then it started moving about erratically. Mary stated that this was the first time that she had seen any strange object move erratically. Normally they moved so gracefully.

AIRCRAFT AND HELICOPTERS.

Malcolm Robinson then asked Mary if she had heard any aircraft in the area over the past few weeks she replied, "Stacks of them." She went on to say that both she and her friend had never known so many night-flying aircraft prior to when they had their

sighting. Mary also explained that a neighbour down the road had told her that she had heard the constant noise of aircraft for days. Mary then related the time when she saw a helicopter in the area, not long after her UFO sighting. She said it was during the night, and it was flying nose down without any lights. She didn't see any markings or insignia on it and speculates that it might have been using night-vision, as it circled over the valley. **MARY AND HER EARLY YEARS.** Mary related to SPI that when she was growing up she had many nightmares, especially in her Mum and Dad's house in Auchtermuchty. Then she moved to a cottage in Monefeith (near Dundee) where she had the most horrendous nightmares. Indeed, these nightmares became so bad, that her Mum had to wake her up as she was almost clawing her way through the bedroom walls. Growing up, Mary showed an interest in psychic and spiritual matters. She has read Whitley Streiber's two books, *Communion* and *Transformation*. Three years ago (1994) she started a subscription to *Flying Saucer Review*. She also likes the *Fortean Times Magazine* (a journal of strange phenomena). She was quick to point out however, that reading all these magazines and books had nothing at all to do with her own and her friend's UFO sighting. "This really did happen," she said. "I am not making it up"..

Mary went on to discuss her friend Sharon Coul. "Sharon," Mary said, "is a good friend to talk to". She went on to say that she had stayed with Sharon one particular night, and that night they could both feel these 'presence's', so much so, she said, that if one comes close to you, you feel yourself going really icy cold, even if you are sitting next to a radiator. She also related that on one occasion, the hairs on the backs of their hands would stick up. "It was like static electricity," she said. Sharon's dog was also a bit upset by the 'presence's' in the room. The following morning as both she and Sharon were having a cup of tea, the electricity went off, the main switch had been switched off. They were both perplexed as to how this could have happened.

OTHER POINTS THAT CAME OUT OF SPI'S INVESTIGATION.

1. Mary refused SPI's help of hypnotherapy in an effort to see if there was any more hidden subconscious information. We did inform her about the pitfalls of hypnosis and said to her that it wasn't the best of tools. However, we did say the final decision on whether to use it or not would be hers. Mary felt that she didn't want to explore this avenue. However, she did accept counselling, and SPI put her in touch

with an expert and qualified counsellor. (Not Quest International, I hasten to add. UFO MAGAZINE said it was they who had got the witness a counsellor. Not so. It was SPI).

2. Sadly Mary refused to let SPI have access to any of her son's drawings. He had drawn a lot on our visit, of the craft that he saw, and also the 'beings' that he saw. None of this was given over to SPI.

3. UFO sighting account forms were left for the witness and her son. She promised to complete these and return them, but we never received these forms back.

4. Essentially SPI have no written confirmation or drawings by any of the witnesses. Thankfully we do have an audio recording of our visit that night.

5. Mary explained to SPI that when she was sitting in the car looking at all these small 'beings' in the woods, she experienced the sensation that something was standing outside, near the car. She then experienced the feeling of someone holding or forcing her head back and felt as if she was lying on her side, but she told SPI that she was in a sitting position in the car. She describes this episode as "really bizarre".

6. The witnesses now feel that they have told their story, and they no longer wish to discuss it anymore. They now want peace and quiet. This is a great pity, but a decision we must respect. There are indeed a number of unanswered questions, points we would like cleared up, but due to the witnesses refusing any further co-operation, we sadly cannot answer those points.

7. Mary has left her Fife home, and now lives with her husband and family in Wales. This move of house was planned prior to these UFO events and not because of them.

HOW SPI LEARNED ABOUT THIS CASE.

We learned about this case from Garry Wood, a UFO abductee from Edinburgh who has assisted SPI a great deal with cases over the years. Garry's own case is incredible in itself, and we thank him for letting us know about this one.

Garry informed Malcolm Robinson of some of the information that he had obtained through a lady called Sharon Coul who lived in the Fife area. Sharon was a friend of one of the witnesses to this

case and had spoken to Garry about it. Garry had also informed me that QUEST INTERNATIONAL were now on the case, and that Tony Dodd was the main investigator dealing with it. I quickly phoned Tony Dodd and asked him if he could tell me anything about the case. Indeed I wanted to know as much as possible. Unfortunately, Tony refused to tell me anything about it, due, he said, to witness confidentiality, which I must admit, I had no qualms about. This I respect. Indeed, we at SPI would also follow the same guidelines should a similar case come about (if the witness requested it !). I thanked Tony for his help and asked him to let me know as much as possible about this case on completion of his study.

Tony had informed me that he had put a Scottish member and investigator of QUEST onto this case, one Brian Rooney. My next call was to Sharon Coul herself, Garry's informant. Sharon was very helpful, but could not put me in direct contact with her friend who had experienced this strange event as she was still very traumatised. However, she did say that she would telephone her friend, tell her all about me, and see if she would perhaps call me direct. I thanked her for this and put down the phone. A very short while later I received a phone call from one Mary Morrison (pseudonym), Sharon's friend and UFO witness. She was on the phone to me for a very long time indeed, explaining all about what had happened. As she continued recounting her experiences to me, with every sentence it was becoming apparent that this case was not only very big, but could possibly be the biggest case of its kind ever to have occurred in Scotland, perhaps even surpassing the Garry Wood A70 case. Mary told me about marks on the ground, small grey 'aliens', cocoons, 'creatures' in her home, and a whole host of strange and puzzling events. By the time she had finished talking with me, it would be fair to say that I myself was more than a little shocked. I was honestly stunned by this startling information. I promised Mary that SPI would help her as much as we could, and would ensure a proper and thorough investigation. Her reply was that she would be happy to continue talking with SPI, but more than anything, she desired counselling. She just had to talk to someone, a professional person with a medical background, about what she had seen, and indeed was still seeing (!). I promised Mary that I would find her someone to go to, and, true to my word, I put her in touch with a professional counsellor (name on SPI's files). **STEPS TAKEN BY SPI TO OBTAIN MORE INFORMATION TO HELP WITH THIS CASE.** I again contacted Tony Dodd and informed him that I now had the

telephone number of Mary Morrison, one of the witnesses. He was most surprised at this as he was sure that she wouldn't talk to anyone else, but I explained that she really needed help and was prepared to talk to anyone who could offer this. I then asked Tony to assist SPI, by giving us all the information he currently had, including any photographs or drawings. He replied that he couldn't do so at the moment as all this material was required to assist in the writing up of a case report on this event for UFO MAGAZINE. The published report about this incident has since come out, but as yet SPI has not received any information which could assist us in compiling our own report, and also in continuing our own investigations.

I then telephoned a local police station in the area and requested information about any members of the public that might have phoned their station on the night of the incident, perhaps relating their own sighting. After checking his records, he informed me that no members of the public had phoned their station, and he was not aware of any such reports over the past several months. I left him with my name and address to contact me should he become aware of any such UFO witnesses. I then wrote a letter detailing my request to the main police office in nearby Glenrothes. In their reply (see appendix), they stated that they were not aware of any UFO incidents in the area.

Letters were also sent to the various airports in Scotland asking them if they had any air-traffic in the area on the night in question. Calls received from these airports stated that they had no air-traffic in my specified area. I await written confirmation from the airports to this effect.

A letter to the British Ministry of Defence was also sent at the time of this report, but no reply has been received. Other lines of enquiry are being looked into, and reports of such enquiries can be found in our appendix section.

LETTERS TO OTHER SCOTS UFOLOGISTS.

Because this was proving to be such a big case, I took the step of contacting four other Scots Ufologists in order to ask them if their own group had any reports concerning UFO activity in or around the date in question. Those Ufologists were Ron Halliday of the Scottish Earth Mystery Research group. Ron had no cases near our date. George Niedzwiedz of Eyemouth near Berwick also said that he had none. John Jenkins of Pennicuik, West Lothian submitted a case, but this was not near our

own specified date. David Colman of Lothian Borders Research informed SPI that he was aware of two cases near the date. This information is currently being looked into by SPI.

INVESTIGATION OF THE AREA.

Due to work commitments by not only myself, but Billy Devlin and Iain Connon, we were unable to quickly go to the specified areas where the events took place. However, Garry Wood has visited these areas on several occasions and a full and comprehensive account of his visits will be given at a later date. SPI finally paid a visit to the three specified areas in January 1997. Malcolm Robinson, Billy Devlin, Stephen Black, and channeller Graham Wylie went over the areas in question, but no physical ground traces were found or noticed. However we did find a white fibrous substance at various areas which we now conclude to be a normal product of the area, though we await the tests done by Quest International to confirm this. Channeller Graham Wylie felt (as we all did) a negative feeling at one location. Later, Graham performed a "cleansing ceremony" at one site and he now feels that these 'beings' won't be back !! SPI aim to return to these locations on further dates to go over the ground at great length, or to ensure that we haven't missed anything.

CONCLUDING REMARKS BY MALCOLM ROBINSON.

Without a shadow of a doubt, this case is truly puzzling, and has all the elements of what must be the biggest UFO event ever to have occurred in Scotland (perhaps even surpassing the A70 UFO abduction case which occurred to Garry Wood and his friend Colin Wright) Sadly in the Fife case, the witnesses have refrained from giving any more interviews to UFO investigators, which is a great shame, but something that we must respect. This does not mean to say that the case is false or did not happen. The witnesses have told their story and would now rather forget it. I'm sure the sceptics will love this !!!

Linda Moulton Howe, the cattle mutilation and abduction expert, phoned Malcolm Robinson from America and was speaking about this case with him for just under two hours. She gave SPI a few tips about how to go about dealing with a case as big as this, for which SPI thanked her. Malcolm did an interview with the Herald, one of Scotland's major newspapers. Upon publication, many other newspapers phoned Malcolm and asked him to do an interview. The Fife Free Press, one of

several papers in the Fife area, did an extremely large piece about this case. Thankfully, they placed his phone number and address in the article. This brought forward several other witnesses who have also seen strange triangular craft in the Fife skies. Sadly, no one phoned who saw anything on the night in question. One witness wrote to Mr Robinson and informed him that she saw two air force jets pursuing a dull grey disk shaped object in the sky !! Investigations are still ongoing into this most impressive case, and we feel that this case should be brought to your attention. UFOlogy is for the people, and people should become aware of what's going on, and in this regard, we submit this case for your attention. We hope you find it of interest.

Malcolm Robinson, Alloa, Central Scotland, February 1997. (c) Strange Phenomena Investigations. Strange Phenomena Investigations Researcher Malcolm Robinson 29 Kent Road, Alloa Clackmannanshire Scotland FK10 2JN Tel: 01259 210714

ADDENDUM. SPI would like to thank the following people for their welcomed help in the investigation of this case. Garry Wood from Edinburgh, Sharron Coul from Methil (Fife), Graham Wylie and Stephen Black from Dundee.

BOOK REVIEW

"A NEW VIEW OF THE ROLLRIGHT RING"

Figure: The saturn square.

Dennis Wheatley, the President of the Wyvern Dowsing Society, has published this in-depth dowsing analysis of the Rollright Ring, following several years research at the site. The analyses include some advanced dowsing techniques.

The book explains, in detail, the elements in the late Guy Underwood's discovery of the geodetic system of earth energies. Dennis inherited Guy's life's research into the system and the book reveals many of Guy's superb energy surveys. Guy discovered that the foundation plans of the ancient megalithic monuments were designed to integrate the earth's natural, whispering energies into the architecture. This form of esoteric 'geodetic engineering' was passed down through the Neolithic Bronze and Iron Ages, to the Medieval European Masonic Brotherhood who also harnessed the geodetic energies into their churches and cathedral plans. This was the Masons' closely guarded secret, kept even from the church hierarchy who would have rounded on them with a vengeance had they known the Christian churches were designed to ancient pagan principles. Examples of the geodetic engineering of a church and a cathedral are included in the book. The book finishes with a series of appendices which, in effect, are practical dowsing exercises including several different dowsing phenomena.

1. The Rollright central 7-coiled geospiral marking a "blind spring"
2. The Megalithic transmission bands and their movements with the lunar cycle
3. Analysing the stones' energetic aerial cross-talk
4. The circle's cyclotron aerial spin energy around the circumference
5. The spin energy exiting through the eastern exit gate
6. The energetic aerial cross-talk between the circle's 73 stones and the outlying King Stone and the Whispering Knights dolmen
7. The Rollright stones' ever-changing polarities and the reasons for this

phenomena

8. Form energy at Rollright; circles create polarised circles
9. Concentric electromagnetic shells thrown out by standing stones across the countryside
10. The cardinal rays thrown out by standing stones to the main compass points and how the rays show a "swivel shift" with changing weather
11. The Hartmann and Curry earth grids
12. The Whispering Knight geospiral and aerial energies
13. The Magic Squares of Antiquity with planetary associations first recorded in ancient China in an emperor's library circa 3000 BC. Of these the Saturn Square is the most numerous

The digits, if added horizontally, vertically or diagonally total to 15. The Saturn Squares appear in the earth as dowsable geometries. There are 21 Saturn Squares in and around the Rollright Ring.

The gamma radiation is recorded on the road running past the Ring. A road plan is included showing radiation "hotspots" along the road up to 4 times the normal background level. Although the levels were checked with a gamma ray radiation monitor, the levels can be dowsed.

The book also investigates archaeo-astronomical activities, the Dragon Project's findings, the obsession with water in the prehistoric religions and discusses why the Megalithic buildings programme came to an abrupt end in Northern Europe around 1500 BC. In a final appendix Dennis discusses his approach to dowsing with instructions for beginners.

The book is priced at £5 with £1.50 for post/packing and is available from: Carol Bradfield, Director Braden Press, 67 Swindon Road Stratton St Margaret, Swindon, SN34PU.

A booklet, 'The Mysteries of Rollright' is also available from Braden Press, priced at £2 + £1 post and packing

Dennis is in the process of publishing through Braden Press other books: 'A New View of Stonehenge', 'The A4 Myths and Mysteries of Stonehenge', 'A New View of Avebury Henge', 'A New View of Henges, Hills and Hill Figures'.

All of these works introduce the reader to a wealth of dowsing experiences covering over 75 dowsing phenomenon, plus advanced dowsing techniques, including "high frequency colour dowsing" which is not mentioned in any dowsing books, and the use of the Biometer Scale. In the high frequency colour dowsing method, an energy can be identified by three parameters: its colour on a 13 colour spectrum; its polarity in terms of "magnetic" or "electric" and its frequency on an ascending scale to infinity.

By this method spectral profiles can be drawn of ancient sites and the "Michael" and "Mary" earth energy currents analysed into a series of coloured bands at different frequencies. Michael's most important central band is white at infinite frequency and Mary's dominant central colour is blue at infinite frequency.

In researching the Avebury region with a German master dowser, a new form of linear, coloured energies linking the round barrows was discovered. Radiating from the Obelisk Stone in the southern circle at Avebury Henge they found radiating linearly from the stones' base a score of coloured lines all at infinite frequency. These discoveries, and more, are described in the books. There are enough dowsing exercises in the books to keep a dowser occupied for a long time in experiencing a wide gamut of new phenomena.

BUNKER BUSTERS

With Matthew Williams

SO THERE'S NO UNDERGROUND BUNKER AT CCC, EH?

After being told by one member of CCC staff that there was no underground facility at the Corsham Computer Centre (CCC), we decided to go and prove that there was. We attended the CCC with our tape recorders and cameras and camcorders at the ready. We were very quick to take a run down the entranceway so as not to give time to the MOD police to stop us. We attended the bunker head entrance and were greeted by a security guard from inside the bunker. He had spotted us on the entranceway infra-red security cameras and had quickly run out to close the gate. We had never seen any security guards before and wondered if he has been employed since our bunker-busting antics, in order to keep people out of the perimeter area.

After closing the gate, which leads to the bunker rampway, the guard started to walk away. We asked him on video if he would confirm there was indeed an underground bunker at this site. He was stiff lipped so we took pictures of him as he left instead. Knowing we had definitely been observed and had little time to do our work, we proceeded to film and photograph as much as we could before being asked to leave.

We walked along the entranceway to the main holding point and car park. Here there are "fire cards" which I have been dying to have a look at for taking time. Knowing that talking them out might constitute some sort of offence I went ahead anyway! I opened up the sealed red box and took out the folded plastic cards. I handed them to Daryl Smith to hold whilst I photographed them. The information

on these cards clearly shows that there is an active underground facility in operation and that these fire brigade action cards were there to assist the fire brigade in going underground to fight a fire. The cards are shown on this page.

Even though at this super-secret facility there are no signs saying Ministry Of Defence or Keep Out, we suspected that there was some sort of secret by-law which could get us in trouble. We were to find out this was not true and that normal laws apply.

Some of the text on the cards include the following: PROCEED UNDERGROUND TO THE SMOKE LOBBY (NORMALLY THE MAIN ACCESS SHAFT) - OBTAIN PLANS OF UNDERGROUND FROM POLICE OFFICE. TEAMS SHOULD WAIT AT HEAD OF SHAFT 1.

This obviously implies that the main methods of entry to this facility are via vertical shafts and in unusual safety protocol - the Fire Brigade would be required to enter the underground facility via the lift systems! Health & Safety executive would have a field day!

After viewing the cards and replacing them we were made aware of a MOD Police Car travelling down the roadway towards our position. We were approached from the vehicle by a lady police officer who was in touch with her control via radio. She asked us what we were doing there and after getting all of our details proceeded to ask us to leave. We asked her if we had done anything wrong by being in the area and to our surprise she said

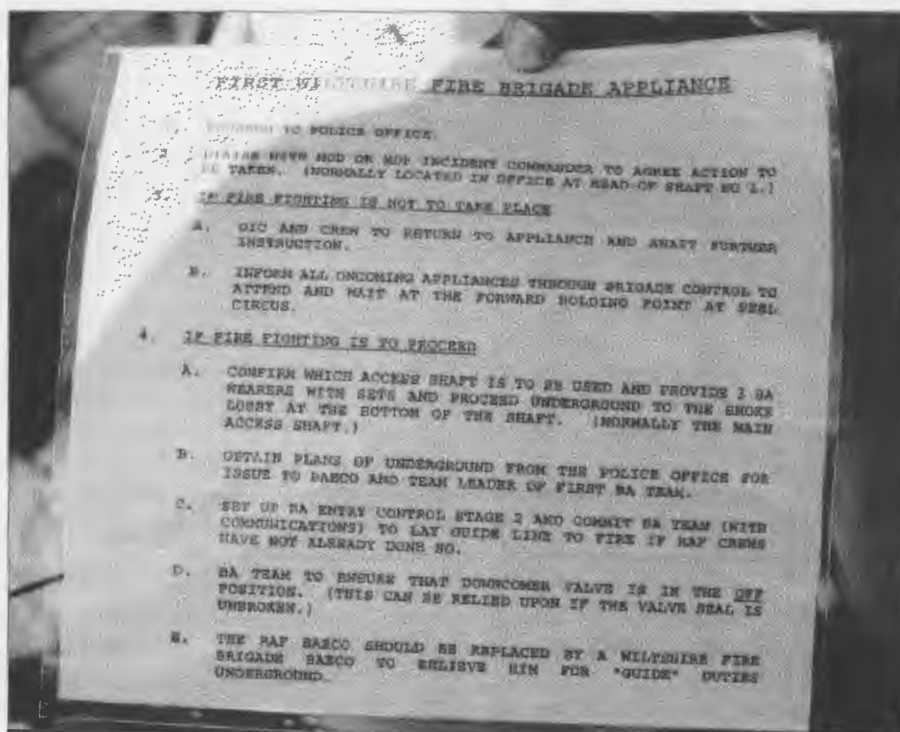

Photo: Fire Control laminate cards. These clearly show underground facilities are in operation at the CCC.

establishment. When we asked the police woman why the MOD had opted for a low key approach to security, she just commented that this was the way they decided to do things with this facility. So it seems like Rudloe Manor may act as a nice cover for this facility by drawing some of the attention away from it. This was probably the idea that the CCC designers had when they placed it in a leafy hollow away from Rudloe Manor. Nice try guys..... So everyone, you now know where to visit to get some really good photos of a working military bunker.

Dont forget that down the road is the military establishment "Provost & Security Service" based at Rudloe Manor site 1. Below is a map of how to find the CCC from Rudloe Manor site 2. Don't waste your time in getting to

that we hadn't. We asked her to confirm if the CCC was an underground facility and she would not. We proceeded to ask her many questions but she would not reveal any secrets about the base. I did however get an answer to my question about the fact that there are no signs to keep people out and "would it be an offence for somebody to go into the bunker". She stated that it would not be an offence as long as the people left when they were asked to do so.

So there you have it folks, you can visit the CCC any time you wish and you cannot get in trouble for it because it is not marked as a military

CORSHAM COMPUTER CENTRE (ccc)

the bunker head or you will certainly get stopped by the MOD Police.

UFOs-Fifty Years On

By Doctor Colin
Ridyard C.Chem.

Background

Few of us could have failed to notice that 1997 is the Golden Anniversary of the "flying saucer". On 24 June 1947, pilot and businessman Kenneth Arnold sighted nine crescent-shaped craft whilst flying in the vicinity of Mount Rainier, USA. He likened the objects' aerial movement to that of saucers skipping across water which led to the immortal coining of the phrase "flying saucers".

A fortnight later, the Roswell Daily Record carried the incredible front page headline "RAAF Capture Flying Saucer on Ranch in Roswell Region"; however, within twenty four hours, remnants of the "flying saucer" were displayed at a press conference and turned out to be nothing more than a weather balloon. The controversy over this incident continues to rage on and is by no means resolved¹.

What does all this stuff about flying saucers amount to ? What can it mean ? What is the Truth ? so wrote Sir Winston Churchill in July 1952². Today, an accurate answer to those questions would probably be:-

"Intelligently controlled unidentified craft with design and performance parameters that far exceed current state of the art aircraft design are on occasion being witnessed by military/civilian aircrew/personnel. These unidentified craft are also on occasion penetrating the UK air defence region. The origins and motives behind the presence of these craft remain unknown"

This is not mere speculation but a statement of fact based on evidence recently released under the Public Records Acts of 1958 and 1967. Some of the best available evidence is outlined in the cases below.

CASE 1: I will start with the case of Flt Lt J Kilburn and five of his associates who reported a silver circular object (symmetrical shape would indicate intelligent construction) that descended with a pendular motion then accelerated away with, and I quote "incredible speed". The craft was in fact responding intelligently to an approaching Gloster Meteor. This incident occurred on 19th September 1952 at RAF Topcliffe in Yorks³.

CASE 2: Personnel at RAF Church Lawford witnessed a craft accelerate from a

stationary position to 1400mph on 26 March 1957. The craft was also tracked by radar⁴. This was recorded on a declassified memo from DDI (Tech) and is held in The Public Record Office. By its very nature, this was a craft under intelligent control. It may well have been remotely piloted as the G-forces would have been quite prohibitive; however, we should avoid entering the realms of speculation. It would be sufficient to say that the "foreign object" was under intelligent control,

There is also some personal interest in these flying leviathans in that primary school children and a teacher witnessed one at Rhos-y-Bol on Anglesey in 1978⁶; however, a more interesting and close up sighting of a similar (approx 500 ft long) craft was witnessed by the crew and passengers of a Dan Air B. 727 at 41000 ft on the 12 June 1982⁷. This craft displayed intelligent construction (silver cone and egg-shaped globe) and intelligent control.

Figure 1: Breakdown of UFO Sightings in the two years ending 31st December 1956

otherwise it would not be hovering and flying.

CASE 3: Radar Operators at West Freugh detected some anomalous radar returns on April 4th 1957. Information referring to this is held in Public Record Office⁵ and from the document I will quote "It was noted by the radar operators that the sizes of the echoes were considerably larger than would be expected from normal aircraft. In fact they considered that the size was nearer a ships echo" and "It is concluded that the incident was due to the presence of five reflecting objects of unidentified type and origin". A meteorological explanation was also considered unlikely. Again I will stress that there must have been some intelligent control for the objects to have flown in the controlled manner outlined in the document.

CASE 4: A meteorological officer at RAF Shawbury was concerned when he witnessed a triangular unidentifiable craft on the night of March 30 1993⁸. The date itself would suggest some intelligence involved. Although the details of this incident have not been made public, some particulars are attested to in the book "Open Skies, Closed Minds" written by a former desk officer at the MOD, who had among other duties, the task of investigating UFO reports. These triangular shaped objects are witnessed on a regular basis. For example, a near miss between a B.737 and a flying triangle at Manchester Airport on the night of 6 January 1995 was investigated by the Civil Aviation Authority Joint AIRPROX (P) Committee.

CASE 5: I will finish off with the famous Rendlesham Forest Incident of 26-28 December 1980. Unlike Cases 1-4,

Figure 2: Numbers of UFO Reports made to MOD

details of this were released in a single memo under the American Freedom of Information Act in 1983. Again, an intelligently controlled, intelligently structured craft was witnessed by a large number of trained military personnel and left significant traces of radioactivity in the landing area¹⁰.

In mitigation, I would say that a trained observer such as a pilot or a weather observer is not infallible when it comes to witnessing unidentified craft; however, a large number of trained observers and their testimony, especially when backed up by physical evidence such as radar and radiation traces cannot under any circumstances be dismissed. Reliable data regarding the number of misidentifications of unidentified craft is hard to obtain; however, Figure 1 shows a Pie Chart breaking down UK sightings contained in the two years ending 31st Dec 1956⁴. The unexplained category includes three radar and three visual sightings. Figure 2 shows a chart representing the number of UK sightings reported to the MOD from all sources (civilian and military) since 1959.

Year 1967 is highlighted as this year saw the first major "wave" of sightings and thereafter, all UFO records were retained by the Public Record Office under 30, 50 and 100 year extended disclosure. It is interesting to note that a request to release all UFO-related records as a matter of public interest was made in Parliament last year. Nicholas Soames turned the request down on the grounds of disproportionate cost! Years 1978 and 1981 are highlighted as these significant blips may well have been due to the popular films "Close Encounters of the Third Kind" and "ET".

Politically, the subject of UFOs is a hot potato and a large number of questions have been tabled in Parliament in recent years¹¹. Currently, the Cabinet Office has the responsibility for taking forward the Government's manifesto pledge to introduce a Freedom of Information Act (FOIA). The timetable currently envisaged involves the publication of a White Paper before this years Summer Recess. This would be followed by a period of open consultation leading to a draft Bill for early 1998 and further consultation. Representations have been made to the MOD to make UFOs a special case with the forthcoming FOIA.

Chemistry and the UFO

If the ambitions of the forthcoming FOIA are fully realised, chemists will undoubtedly have an important role in the analysis of UFO incidents. The bitter truth of the subject at the moment is that there are

very few scientific precedents on which to base detailed studies and there is clearly a lot of potential for further development in this field.

Classically, UFO related phenomena fall into four categories, these being Close Encounters of the 1st Kind (CE1), 2nd Kind (CE2), 3rd Kind (CE3) and 4th Kind (CE4). These will be described in turn:-

(i) CE1

CE1 incidents usually refer to sightings of unidentified craft seen at long distances or at great height and probably account for the vast majority of sightings. The most obvious means of detection are physical such as radar and photographic. Indeed, on a historical note, the MOD have employed the services of Kodak to examine films and photographs of UFOs as well as equipment¹². Regrettably, even the best analytical techniques cannot deter the determined hoaxer.

A case in point was that of a fifteen year old boy who had the MOD baffled by a photograph of a "squadron of flying saucers" allegedly taken on the 28 March 1966. Convincing as the photograph was, the young man in question admitted to its fraudulent nature some years later, apparently to ease his conscience. How many other consciences out there that are in need of relief is open to question.

One of the best documented analysis of a photographed aerial disc was conducted on a second generation negative taken on 4th September 1971 over the region of Arenal, Costa Rica¹³. The analysis included:-

1. Geographic Locale-including sun angles and shadow to confirm times
2. Digital Enhancement
3. Development of film on various contrast papers
4. High Reverse Contrast Imagery to measure relative densities between object and background

The photographs of the disc and the concluding arguments were quite impressive as were the referees comments suggesting that the disc may have been caused by a flaw in the photographic emulsion. The authors of the article concluded that an unidentified, opaque, aerial object was captured on film at a maximum distance of 10000 ft. In this particular case, hoaxing was not an issue as the photograph was taken by a government geographical survey team.

Perhaps a better way of observing

CE1 incidents would be to develop and utilise equipment capable of measuring microwave and other spectral emissions at distances up to 10 miles. For example, if unusual gases such as deuterium were to be detected in emissions of unidentified craft, discussions as to the nature of propulsion could be initiated. Databases based on spectral fingerprints could also be generated. There would be technical problems to be surmounted, for example metallic objects would most likely absorb the vast majority of microwaves.

A case in point that could have benefited from this approach would have been the Wash Incident¹⁴ witnessed for a total of eleven hours by police officers, civilian aircrew and the crew of a tanker on the 5th October last year off the Skegness Coast. The sighting was also backed up by returns at three RAF radar stations. The MOD's official conclusion that the incident was due to a combination of a church steeple called The Boston Stump and the planet Venus was highly suspect to say the least although high buildings can give radar returns. Nevertheless, trained radar operators would probably be aware of this possibility and it would be a matter of grave concern if the crew of a tanker, or any ship for that matter, were unable to recognise the planet Venus. Suggestions to the MOD that this incident highlighted the need for some form of spectral fingerprinting however, went completely unacknowledged.

(ii) CE2

CE2 incidents usually refer to sightings of unidentified craft interacting with their environment, usually leaving some form of "calling card" such as scorch marks or imprints on the ground. This would allow for all manner of chemical tests to be conducted in the vicinity including:-

- (1. Radiographic Measurements
- (2. Surface Water Analysis
- (3. Analysis of Plant Material
- (4. Soil Analysis

Undoubtedly, the most famous CE2 case in the UK occurred at Rendlesham Forest on the nights of 26-29 December 1980. The contents of Lt Col Charles Halt's report (Figure 3) make chilling reading, even today, sixteen years after the event. Sceptics of this incident still like to imagine patrols of confused American soldiers wandering round Rendlesham Forest thinking a lighthouse was a UFO.

The depressions in the ground and the above normal beta/gamma readings would appear to dispute this. One small anomaly from the Halt memo that was not established

was whether or not the elevated beta/gamma readings were induced from a stronger source that had been since removed from the contaminated area or as a result of radioactive material spilling from the unidentified craft.

It is a shame that details of the Rendlesham Forest Incident did not reach the public domain until two and a half years later as detailed site analysis would undoubtedly have told us a lot about the incident.

Ten years later, some cursory tests were done on the soil in the landing area¹⁰. Despite being a little too late, the results nevertheless make interesting reading. In addition, the analysis could serve as a future precedent for chemists wishing to investigate CE2 sites. The control samples were taken at the landing site and at 50 and 100ft distances from the landing site; the results are summarised thus:-

1. The soil from the affected area had a lower field moisture content than the control samples.
2. The affected soil from the landing site was also resistant to rehydration.
1. Under the microscope, the affected soil had higher degrees of silicate or glass globules than controls, indicating that the sand had been fused to form these tiny glass beads.
1. The Landing site soil showed no microbial growth of any type whereas the control did.

Had the incident been made public earlier, a much more detailed evaluation of the site could have been undertaken. For example, ion exchange chromatography and neutron activation analysis could have given an indication of N-content between sample and control. Atomic absorption spectroscopy could have indicated differences in trace metals between sample and control. Given the undeniable fact that intelligently controlled unidentified aerial

craft with capabilities far in excess of current state of the art technology have on occasion penetrated UK airspace (according to the Public Record Documents), clearly, a major opportunity was lost. This is the bitter, tragic and inevitable consequence of information suppression and censorship.

Had scientists been allowed on the contaminated landing site at Rendlesham Forest, studies could have been carried out on the plant life. Note from the Halt Memo in Fig. 3 that the near side of a tree also showed elevated beta/gamma readings. There is a very good scientific precedent which utilises biochemical traumatology as a tool for identifying actual stresses elicited by unidentified sources¹⁵ and this too would have served well at Rendlesham.

Following the testimony of a 1981 UFO landing at Trans-en-Provence in France, samples of a wild strain of Alfalfa (*Medicago minima*) were collected at the epicentre and at various increasing distances from the trace left on the ground.

The first samples were collected by the local Gendarmerie four days after the event and a second batch was collected thirty-six days later by a team of technicians from the French National Space Research Centre. An additional batch of similar samples collected two years after the event was then used as an *a posteriori* control of the natural variability of the same area. Extensive biochemical determinations were carried out on the plant samples and included (i) photosynthetic pigments, (ii) free carbohydrates and (iii) free amino acids. Statistically, significant results were observed by plotting concentrations versus distance from the epicentre (Fig 4). It also appeared that the unidentified source elicited biochemical effects as a reciprocal function of the distance from the source. Lack of any visible trauma on the leaves

such as charring or burning indicated a possible radiative source. Ultimately, the study concluded that

- (1) Something unusual did happen
- (1) That the influence of the unidentified source decreased with increasing distance from the epicentre.
- (2) Symptomatic changes in vegetation could be monitored at CE2 sites and compared with the effects of known radiative sources.

CE3 and CE4

Close Encounters of the Third Kind refer to an actual encounter with the occupants of a UFO whereas Fourth Kind Encounters refer to the so-called "Alien Abductions". These are highly contentious issues that have been extensively studied by Prof. John E Mack of Harvard University and his conclusions that this phenomena is a real one are quite incredible¹⁶. Forensic and medicinal chemistry can and should have an important role in this field, although that is currently not the case.

I am not aware of any medical facilities in the UK which accept and monitor abductees. Given that UFOs were (and still are) quite mistakenly considered highly dubious, it would be the height of folly to repeat the mistake. At this point, I must also stress that although intelligently controlled craft with design and performance parameters that far exceed cutting edge technology have been shown to exist, there is not a jot of evidence to prove that these are of extraterrestrial origin. Notwithstanding that, the technology is certainly alien in the foreign sense. Stanton Friedman, a nuclear physicist hit the nail on the head when he said "Never mind the flying saucers, what about the occupants !"

Concluding Remarks

Speculation over the last fifty years that governments have been aware of intelligently controlled aerial craft with design and performance parameters far in excess of cutting edge technology has been confirmed with the release of a large number of documents from such bodies as the Public Record Office. Undoubtedly, there are more documents in the pipeline.

Although speculation as to the origins and intentions behind this phenomena is premature, it is clearly the case that the general exclusion of mainstream science from this subject area has led to a woeful lack of scientific understanding and development which has not necessarily been in the best interests of mankind. I would urge fellow chemists to lobby their MPs

Fig 4: Concn of carbohydrates -v- distance from epicentre

with a view to making the subject of unidentified flying objects a special case with the forthcoming FOIA and that all documentation held under 30, 50 and 100 year extended disclosure be released as a matter of the utmost urgency.

The following UFO-related documents may be viewed at or ordered from The Public Record Office, Ruskin Avenue, Kew, Richmond, Surrey, TW9 4DU (Tel. 0181 876 3444) :-

Contactee Viewpoint

By Jonathan Hurst

- Close Encounters - Multiple Reference Syndrome - Alien Dialogue - Readers' Questions -
Welcome to the column of Jonathan Hurst and Janice Jackman, founders of Truthseekers West
Yorkshire.

It is not easy for us to follow the advice of our ET siblings and come forward with this type of information. Especially as we realise negative criticism is often inevitable. Regardless, this is our contribution to the perceptual shift emerging in human consciousness. Truthseekers Review has been Janice's sole medium thus far. I used to produce my own esoteric journal until fourteen months ago. Janice and I met soon afterwards.

Obviously, UFO-related experiences are escalating at an incredible pace. Witnesses probably feel less reluctance to come forward because of increased media attention and the many UFO magazines now available. Many contactees have been told that widescale public contact shall be the culmination of this phenomenon. Time will tell, as always. Nevertheless, the paranormal continues to flood mainstream awareness.

In the previous issue of *Truthseekers*, I gave a basic outline of what we've been told about the so-called Greys. The bulk of this information was received by Janice, through telepathic contact with certain Greys and hybrids. This telepathic contact occurs in three ways: face-to-face, remotely, and interdimensionally. In the latter case, communication is with an 'etheric' presence, perceptible clairvoyantly. Sometimes I am there to ask questions. Also, on rare occasions Janice may allow the other intelligence to come through her body; termed 'trance channelling'. Shamans have been doing this for millennia.

Without my encouragement, Janice would keep quiet about her extraordinary experiences. In fact she would rather concentrate on more earthly matters like her three children, and if time allows, healing and visionary art. Yes, she has regular encounters with Greys and the like (recalled naturally without hypnosis), but the novelty

has long worn off.

Let me clarify my position in all this. Janice and I live separately. Unlike Jan, I do not remember any direct interactions with ETs or other paranormal entities. Although, seeing the cover of Whitley Strieber's best-selling *Communion* for the first time in 1987, did trigger a flashback to what I now believe was an abduction experience. I was fourteen at the time and hadn't been exposed to Grey imagery before.

Fortunately, along with friends and family, I did witness several UFOs in 1989. The aerobatic objects were disk-shaped and displayed a colourful array of lights. They appeared over several successive evenings, and were reported by many independent witnesses throughout the locality.

Since then I developed an obsessive interest in ufology and began conducting my own research. The sheer weight of evidence and sincerity I met convinced me that there was a basis of truth to the paranormal.

THE MEN-IN-BLACK

Most of us know of the infamous MIB. Reading about them in books and magazines is quite different to hearing someone tell you their firsthand experience - especially if that someone is a

trusted friend. Several persons I know claim to have encountered this bizarre phenomenon, and now possibly Janice and her nine-year-old son Craig.

It was about 9am on the 1st May 1997 - a clear, sunny day. Janice was taking two of her children, Warren (4 years) and Craig, to school. While driving over Ilkley Moor, she and Craig noticed a big black American car appear behind them after turning a bend in the road. The car came dangerously close and remained about 3 inches from their rear bumper. Janice accelerated but could not lose it. Strangely, she nor Craig could see any occupants - the car appeared to have no driver. After about 2 intense minutes it simply vanished - on a stretch of Moor road that had no turnings. Craig and Jan were baffled. Warren was strapped into a baby seat and could not look out of the rear window. Coincidentally, two nights before, Jan and I both dreamt of being chased by MIBs.

Later that day, after Jan had told me what happened, I suggested she try to find out who was responsible for the episode, using 'remote viewing'. Eventually, she found herself looking at what she called a 'hologram machine', apparently kept in a military base somewhere. She learned that this machine would pick up on certain 'thought emanations' and project holographic images...

A week or so later I told a friend, who may also be termed a contactee. Her reply was astonishing - her ET friends had told her about these 'hologram machines' and their purpose. Everything tallied with what Jan learned psychically. But, of course, this doesn't prove that they exist.

ALIENSPEAK

Up until now I have tended to paraphrase the information obtained from our ET siblings. As I have simply passed on details of *their* perspectives, from now

onwards they have agreed to use this column as a direct medium. Remember, you are free to reject anything that does not conform with your picture of reality.

Let me first of all introduce you to a dear friend and colleague of ours, known as Luanda. He is one of the benign Reticulans, and claims to be approximately 243 years old, from the year 2500, according to our timescale. He once called himself 'the 100th monkey' - meaning that he has acquired some emotions. What follows was transcribed by Janice using remote telepathy, done especially for this column.

LUANDA, 20TH MAY 1997

"The closest translation of my name using your symbols is Luanda. These names you are given are purely for your convenience and recognition. We do not usually contact ourselves using monophonic methods; our unity allows us to interface without effort of spoken language. We find it interesting that as a race you have been, and are still, capable of telepathic communication but choose to go through such laborious contortion to communicate on each of your days. The pollution caused by many other contact methods gives us reason to question the direction of the human race. We are not here to make judgment, only to observe and to remember how we too destroyed our homeland without thought for our future.

"We visit in all times and locations. Time to us is like one of your oceans. It flows in and back, bringing new scenery each time; never quite the same yet always there. We can ride the waves of time, undulating, choosing where to materialise to seek lost knowledge.

"This Jonathan knows of my existence through channels he has recently acquired. I have been aware of him for many of his life years. It is good he has an understanding of our existence. Although with his innate knowledge, it makes life quite a struggle for him, my friend. We know this but can do nothing that can affect his life pattern yet.

"It is easier to connect with those who are part of us, or those who have supplied factions of themselves. The interaction gives strength to each side. Jonathan, Janice and myself are not just acquaintances - we are shades of the same moon."

The next part was extracted from a message for someone else.

LUANDA, 5TH MAY 1997

"We are as you would call 'vegetarian'

regarding our nutritional intake, which is absorbed through the skin (we also 'breathe' through this organ). We only take in what is necessary and therefore have no solid waste. Any impurities are expelled through the skin as perspiration.

"We have not evolved through stages like your Earth creatures. This is where your planet is unique, with both genetic intervention (as with yourselves) and total non-intervention; in contrast with those evolving around you. Studies can be made of your effect on Earth species through ignorance and blinding acquisitiveness for possession of materialistic substance.

"We are centuries ahead of the human race, advanced in most ways, especially in technological data. When our self-projected ecological disasters began, we were able to modify ourselves to enable our race in adapting to life above and below ground.

"As our world began to die we began the struggle to live. Due to our growing sterility, cloning was the first simple stage to increase our numbers as quickly as possible. Then the modifications gradually emerged. It was more advantageous to create a larger brain and to streamline the body to basic requirements. As we cloned, genitalia were absorbed. It became impossible for our families to naturally birth via a union.

"Gender is not an important factor in our civilisation. This may seem strange to a species such as yourselves, when this small part of your constitution creates such large problems. We can choose if required, which sex to be as we mature; most prefer to stay neutral.

"We have donor eggs and spermatozoa collected from Earth planet with permission, which introduce new aspects to our race when required."

SIGIZ, 26TH MAY 1997

Many CE4 experiencers believe they simultaneously exist as part of the ETs with whom they have contact. Some witnesses have the ability to consciously merge with these parallel selves - a phenomenon termed 'dual/multiple reference'.

Recently, Jan and I became aware of a being called Sigiz. He is 30% human and 70% Reticulan, and one of our parallel selves. We realise this will sound far-fetched to those readers whose perception of reality does not include spiritual and esoteric dimensions.

Sigiz is part of a hybrid colony on a planet somewhere in the Lyra constellation. Incidentally, according to Luanda, Lyra was the home constellation of the Greys' planet before its holocaust. The catastrophes apparently ripped a hole in the fabric of space-time and displaced the planet to Zeta Reticuli.

Below is a message from Sigiz, transcribed by Jan using remote telepathy.

"The 'Manikin Man' has been my epithet in certain parts of your world, within a certain timescale. I am the size of one of your infant children, about three feet tall. My overall colouring can be compared to parchment. I have four digits on each of my hands, three fingers and one elongated thumb. We have no preference regarding which hand to use, as we are ambidextrous. With reference to your timescale, I am 600 years old.

"I am in contact with the writers, at this moment, in answer to telepathic messages which reached our source. A signal of assistance was directed at any of the writers' parallel selves. Contact of this nature is normally forbidden, as not to intervene recklessly. In this case we were invited into your reality to observe ancient soul-bearers, in which we were once present. Once invited, we can slip along the lifescape of the person in question, gathering samples and immense information. I am connected to both of the writers on a sliding timescale. Aspects of each have joined in their future, along with others, to form the being of myself.

"There has been much work to achieve the point of existence of my race in our time. If it were not for the interaction with your human race, ourselves could possibly be of non-existence; or we could have existed as purely etheric, or have been adapted to survive in another medium. Let us say, without you we would not be as we are now.

"We have been able, once invited, to travel back in your time to various stages in the development of your present race. Samples were collected and our hybridisation began to take place. Your race is evolving rapidly, so early samples are inferior to recent donations.

Many of our young adaptations could not survive, but their strains gave forth to stronger beings whose selves were larger than their living bodies. These hybrids can interact with other living matter, conscious or otherwise (plant or animal), as can yourselves, to sustain energy and regeneration on your planet.

"The whole of your lives could/should be one of privilege and contentment. You have boundless inner knowledge, accumulative and endogenic. You have the power to create all that is - and that is it."

Ufology's Image of the CE4 Experiencer Today, mainstream ufologists seem to refrain from investigating CE4 witnesses who claim to understand their experiences; due to the informative nature of the ETs involved. I have met many of these witnesses, both of the 'abductee' and 'contactee' categories. Many agree it is time investigators adjust the filter of their personal paradigms and acknowledge this crucial dimension of the CE4 phenomenon. Obviously, this will help the rest of us gain a fairer understanding of the subject.

This type of witness is possibly avoided because the acquired information is generally unprovable and based on an esoteric rationale not understood by the average ufologist. Still, not many seem to appreciate the amazing consistency that exists between what witnesses have been told by the ufonauts. Instead we get ufologists claiming the CE4 phenomenon is an enigma that no-one really understands. Remember, the experiencers are on the frontline; ufology is primarily based on secondhand, filtered information.

ONI COLONA

Oni Colona is the name used by a female humanoid that claims to be Janice from the year 2081. Janice has been in contact with Oni for 16 years. For further information, please refer to our article entitled *Open Contact*, in the January 1997 issue of *Truthseekers Review*.

Oni likes to write poetry, although she says her kind contains music and colour. Below is a poem she wrote on 21st May 1997, especially for the readers of this column; transcribed by Jan. Clairvoyant readers may be able to see and hear its other aspects.

*A Place, A Dream
Swirling clouds of endless love
Reach from the stars to you.
A breath, a sigh just there inside,
With countless rays of light
All pouring down so true;
So pure like rainbows in the sky.
If you could see above the trees
The energy emitting,
And harness all the goodness there
To prevent this planet's pleading.
If you would look inside yourselves
And believe in who you are,
All wars would cease, a pure release
You're love, you're light—a star.*

Questions from readers are always welcome, even those directed at our ET contacts. Also, we can contact any entity previously unknown to us, on your behalf.

In the next instalment of this column, our ET friends will explore the connection between 'agraglyphs' (crop formations) and alien writing. Also, we shall learn about the subsurface activities of the negative Greys on this planet. Plus much more.

All correspondence should be addressed to: *Contactee Viewpoint, Truthseekers West Yorkshire, 14 Deaconess Court, Queens Road, Ilkley, West Yorkshire LS29 9QJ.*

Spanish UFOs

A report by Richard Conway

Declassification of Spanish UFO files has provided over 2,500 pages of material on UFOs. It has been a very long and complicated process with the relations between the Spanish air force and Ufologists sometimes in dire straits. Vicente-Juan Ballester Olmos alleges that there is no cover-up in Spain. Him and many other Ufologists have worked long and hard in order that the material be declassified for public viewing.

I have over 2000 pages of this material. There are no answers to the UFO enigma in any of these files, only more questions that the air force's investigations have provoked. The investigations for the better part have been very thorough incorporating meteorological surveys and astronomical data (Nothing like Air Staff 2a!). Before I relate some of the things that are in the bigger files (which span up to 280 pages each) the whole declassification story should be told as it shows that many of the conspiracies that we as Ufologists dream up about the government are even more apparent between Ufologists

Photo 6 shows Vicente-Juan Ballester Olmos and the Lt. Colonel responsible for the declassification effort

themselves.

In 1988 Vicente-Juan Ballester Olmos started work on a project with the Spanish military. This project was jointly researched and carried out with another Ufologist from Barcelona (Joan Plana). These two Ufologists knew that a major source of information was the Spanish air force because historically the air force had always showed their interest in the subject publicly. This public interest began in 1968 when the air ministry released a note in the national press asking people for information on the UFO phenomenon. The reason for this is probably due to the 1968/69 flap in Spain which led to a little public tension. Up to this point in time the air ministry had little information about UFOs. UFO report forms were drafted by the air ministry and later on these report forms were copied from national UFO groups. A judge was appointed to investigate the case in question and use all military, civilian and intelligence resources

at his disposal in order to find solutions for objects sighted, photos taken etc. This information was taken from witnesses and classified confidential.

The reason for this classification was that it was simply an air force instruction, not to avoid situations of public panic or for political reasons etc., but just because it wasn't very interesting stuff that had no real conclusions. By 1974 the standard of investigation had become very poor. In fact some cases were not even investigated at all. Some of the cases needed scientists to analyse the data and as such conclusions were given from intuition rather than the facts of the case.

In the Canary Islands between 1976-1979 there were cases witnessed by thousands of people. Photo 1 shows a UFO that was taken in the Canaries in 1976. It is known that there are twenty five independent pictures of this. I can't remember the exact figure but nine of these pictures are known to exist officially to the air force. This pretty much rules out the possibility that this case was a hoax. That said, UFO researchers in Spain managed to shed light (Pun!) on what this photo might represent. This report was concluded unknown by the air ministry. Trust Ufologists to take the sceptical angle and show that it wasn't a UFO but a ballistic missile.

Photo 1: Above, this Canaries UFO photo was determined to be a ballistic missile.

Right, A blow up of the same photo shows a angled cylindrical object in front and above the light flare.

It just so happens that 1000 km. West of the Canaries the Soviet government had a missile base. Low and behold, calculations were done by scientists and it appeared that this object originated from where the Soviet base was. Coincidence? I think not. However, the US government and the Soviet government were asked whether they launched a missile at that time and from that location and both governments denied this. Mind you, if you were a government would you accept responsibility for a missile launch so close to foreign soil? This picture is still referred to in many books as a UFO. Photo 2 shows a picture taken in the Canaries, again in 1976. No conclusion for this photo was forthcoming from either Ufologists or officials.

In October 1976 a journalist named J.J. Benitez requested the air force to provide him with UFO files. The general in charge of the air force met him rather covertly in a hotel room and provided him with 12 files documenting UFO investigations by the air force. Benitez signed a document to say that he shouldn't disclose his sources. Three months afterward he published a book about the air force's involvement in UFOs. As you can imagine this irritated a lot of air force officials. Was this guy a whistle-blower or was he like so may before and after him a greedy Ufologist who just wanted to make loads of dosh and be really popular with other Ufologists? Regardless of his motives he annoyed a lot of people and froze a potentially good relationship between the air force and Ufologists.

The president of the national group CEI, Pepe Redon, several years later wrote to King Juan Carlos and the General of the Air Staff requesting that the once willing Spanish air force make all it's UFO files public. In March 1979 a meeting took place between the heads of the army, navy and the air-force. At the meeting they reviewed the proposal and decided to deny access to these files. This was classified as a reserve matter. The same agency JUJEM were now never able to declassify the files as this was Spanish law (that once an agency had made a ruling they were not allowed to reverse that decision). Back to bureaucracy again! It seems Ufologists were going nowhere with this. In fact every Ufologist that wrote anything to JUJEM received the same standard reply. Begone! You had your chance! This is classified now.

S Files

Anyway, U F O researchers in Spain were somewhat annoyed with Benitez for doing what he did. There's always one that ruins it for everyone else, they thought. So up to 1988 Spanish researchers carried on with their letter writing campaigns in the hope that the air ministry would send something back saying

On January 1997, The Spanish Ministry of Education and Culture approved the official record of the anomaly foundation.(La Fundacion Anomalia) a non-profit organisation. What is the anomaly foundation? It is a cultural organisation created by a group of experienced UFO researchers, backed by a large array of investigators, experts, qualified individuals, scientists and others that decided to offer the collective their biographical assets, archives patrimony, experience and dedication, as well as their financial assistance and know-how to make this a viable project.

This innovative project consists of these objectives:

- (i) To promote the study, under a rational and scientific perspective of anomalous airspatial phenomena, commonly named UFOs, as well as those related subjects, and its socio-cultural influence.
- (ii) The preservation and management of archives, files, libraries and other legacies on the mentioned matters.
- (iii) To edit journal Cuadernos de Ufologia, as well as other publications and research monographs, essays, etc.
- (iv) To finance UFO research through grants.

This is the first of it's type to exist in Europe. Anybody wishing to contact the Anomaly Foundation can do it through me should they need scientific consultation in a UFO case or should they need to report a sighting that they had in Spain so that this can be directly transferred to the national database that is currently being set-up.

that these files would be available for the public (i.e. declassify them).

Ballester-Olmos and Joan Plana started their campaign on the air ministry in 1988. In 1990 they began seeing the relevant people face to face. Their major argument was that UFO reports contained scientific material and are not relevant to the defence of the nation. In May 1991 an internal memo was written within the operations division of the air force to the general of that section, which stated that Ballester-Olmos had had many meetings with the air force and it was felt that there was no reason why the UFO files should not be

Spanish UFOs

Photo Files

Spanish UFO researchers at this time. It was an exciting time for some and others were still determined to ruin the day. Vicente met with journalist and UFO researcher Javier Sierra in 1990 when this was coming to pass so that he would be present to acknowledge the involvement of all the parties concerned in obtaining this information. About this time J.J. Benitez, some 20 UFO books later, wrote an article in the press refuting the alleged declassification

effort by Ballester-Olmos suggesting that it wasn't possible and that he was lying etc., etc.

J.J. Benitez wrote a letter to the head of the air force basically saying that he had heard about the process of declassification and he would be very grateful if the air force transferred all of the soon-to-be declassified UFO files to his publishers for his next book. The

letter continued saying that the proceeds from the book would be going to a handicapped charity under the command of the queen of Spain.

Suffice it to say, the general wrote to the queen and asked her about this charity. The queen replied that she didn't know what he was talking about and she'd never heard of this particular charity. What a cheeky guy! That really is low, even for a Ufologist with a love for money and fame.

Since 1992 declassification has continued unabated. It finished in May of this year. The Spanish government have agreed to release information as they investigate it. It has to be said though, that regardless of the reality of the co-operation between the government and researchers, when I went to the air force headquarters in Moncloa, Madrid in 1996 I was told that I was only allowed to copy ten pages each visit. I averaged about 250 pages each visit because the nice lady behind the counter could see how desperate I was but nevertheless, the rules don't make it easy for the acquisition of these reports. I was also warned that I would get in trouble if I worked for a magazine.

Likewise the UK MOD through the Public Records Office (PRO) charges extortionate prices for photocopying in order to deter people like UFO researcher Nick Redfern from copying whole files and seeing if there is anything of interest in them. It should be noted that files are very hard to acquire regardless of the fact that they are supposed to be on public display. On several occasions the MOD through the Lord Chancellor has chosen to extend the thirty year rule on certain UFO files and classify them secret for up to 100 years. Now what could be so sensitive to need that kind of legislation?

The JAL Air Flight of 1979

One of the most significant cases in the files which to date has remained unexplained, involved a series of unexplained sightings over a few nights.

On the 11th November at 20:27 the air traffic tower at Valencia receives a call from Madrid saying that a signal had been received on the emergency channel of 121.5 Megacycles. This signal was received by two planes as well IB558 and IB231. The signal originated from 40 Nautical miles NE of Valencia. It was thought that it may be a small aircraft from Castellon but the airclub was contacted and no flights at that position were reported.

At 22:02 Barcelona control contacts flight JK297 and asks if they hear the signal on the emergency channel. They confirm this but claim that they are unable to identify it.

At 22:05 JK297 contact the control tower and claim that they are being shadowed by two red lights some 3-5 miles away. It was apparent that they were not aircraft lights because there were no observable anti-collision lights. At no time did the crew see an object but facing the possibility of collision with what they determined to

be a large object represented by the intensity of the light they diverted their route to land in Valencia.

The service personnel at Valencia wait outside the airport for the flight and observe 3 abnormally luminescent lights in the sky. One of the lights, although static, produced sparks of green, red and white.

On the 17th November, a Pegasus radar installation records an unknown trace at 16:20. A fighter jet is scrambled. (This was the second bit of military involvement in this incident. On the 11th a jet was sent up in pursuit of the light and was unable to obtain visual or radar confirmation).

Contact is lost with the jet and the radar operator at 17:12 however the pilot of the jet reports seeing three high intensity lights flying in an isosceles triangle formation. The jet maintained pursuit of these lights but at no time did the relative distance between the jet and the lights change.

The pilot realises that he is unable to catch-up with the lights and heads back towards the base in Albacete. On the way back he hears infant voices saying (in Spanish) "Hello, How are you? Hello, hello.....". This carries on for a little and then there is hard interference for thirty seconds as he leaves the zone.

On the 28th November Madrid control communicates with the Pegasus radar installations and reports that the Madrid astronomical observatory in Moncloa had sighted two strange objects above Madrid. These objects were observed by many people in the centre of town. As a result of this the incident made national radio headlines. EVA 1, the first radar installation reports 3 objects at 02:45, this is confirmed by EVA 2, but this installation gives different location co-ordinates.

A fighter jet was scrambled but visual confirmation was obtained of only one object and at an altitude much lower than that of the fighter jet and below its floor safety level.

This case is represented by a file that is over 200 pages long. It details many investigations into the incident which include meteorological surveys, eyewitness report forms and radar readouts. Richard Conway 1997 TEL 0181 989 2296

Truthseekers Special Report

PROOF POSITIVE OF THE UFO COVER-UP

By Matthew Williams

Matthew Williams is a former civil servant who worked for HM Customs & Excise Criminal Investigations department who since his own UFO sighting, back in 1990, now investigates the UFO enigma full time. He has managed to get the MOD to unwittingly admit that they knew the whereabouts of UFO files which were listed missing - (which they secretly had hidden) - whilst at the same time they were spinning a web of untruths to public, press and MPs. He has also looked into the governments investigations of UFOs and had uncovered the amazing details of how one department, implicated in UFO investigations, operates from a super secret facility in Corsham, Wilts which is housed underground in 35 miles of nuclear proof tunnels. Matthew has become a whistle blower on the existence of this base and a number of other secret bases. Matthew believes in direct action to expose bases and has been involved in some actions against bases in the UK.

The following information may to the uninitiated seem complex or trivial so it must be clearly pointed out that the reasons for providing this information are simple. The MOD says that there is no cover-up over UFO information and also they state that there have been no secret departments investigating UFOs. This we manage to disprove along with uncovering a policy of downplaying the UFO subject. The story gets even more interesting when you learn that after we found out these facts in a MOD file the MOD removed the incriminating file from public view. This file implicated Provost & Security Services (based at RAF Rudloe Manor), which is a deptmt that I have been researching for some years, as having investigating the UFO subject - a point which they deny.

I have supplied snippets from the original government documents which show the points we are making. If anyone wishes to get hold of copies of the originals they can do so by visiting the Public Records Office in Kew, London where the files can be booked out and photocopied.

File no AIR 2/16918 provides the best evidence to show that in the 1960s there were no fewer than seven secret government departments within the Ministry Of Defence that were investigating UFOs. Former UFO public office investigator Nick Pope claimed that in his experience there were no other departments investigating UFOs. We

have a problem with this statement in light of these new files which show otherwise. Could it be that Nick Pope in his low ranking position of Executive Officer (an entry level grade) was not aware of these departments, or is he covering them up? When questioned, Nick Pope assured me that he did not know of these departments when he was working in the MOD and had no dealings with them.

When researching UFO files you encounter the thirty-year rule problem. This means that any information which is released through official channels is subject to a thirty year filing rule (sometimes longer). This means that by the time the files reach our hands and we learn things the departments which dealt with the information have probably closed down or had their names changed and so we cannot find out their current status or records, or even to make complaints. The departments clearly named many times in this file have no other documentation or references within the Public Records Office. Consequently we suspect that this file was probably not meant to reach the Public Records Office. Are we going a bit far in stating this? Perhaps not when you learn that after researchers exposed the file it was then removed from view at the Public Records Office and only returned after questions being raised in the House Of Commons by the Rt. Hon. Ieuan Wyn Jones, MP for Anglesey North.

The confirmed departments involved in UFO investigation that we know of in the 1960's are:

- ⇒ AMOC (Air Ministries Operations Centre)
- ⇒ AIS (Air Information Service)
- ⇒ AI(Tech)4a (Air Intelligence Technical 4a)
- ⇒ AI(Tech)5b (Air Intelligence Technical 5b)
- ⇒ AI1 (Air Intelligence 1)
- ⇒ DSTI (Department of Scientific and Technical Intelligence)
- ⇒ DDI-Tech (Department of Defence Intelligence Technical)

Public departments investigating UFOs who were in fact simply letter writers that fronted these other departments are DS8 & Air Staff 2 & S6.

CAA (Civil Aviation Authority) has also conducted investigations of the UFO phenomenon, and has recently finished an investigation a near miss of a UFO and a jetliner coming which was making its final approach to Manchester airport.

Extra departments rumoured to be investigating UFOs include **D155** and **DI64**.

The files which were used for the basis of these investigations are as follows:

AIR 2/16918, AIR 16/1199, AIR 2/17318, AIR 20/7390, AIR 20/9320, AIR

20/9321, AIR 20/9322, AIR 20/9994, AIR 2/17318, AIR 2/17526, AIR 2/17527, AIR 2/17982, AIR 2/17983, PREM 11/855.

including Richard Conway and two original witnesses. We visited the nuclear bunkers and will be releasing this proof soon.

Bluebook which we now know of as project Sign and Grudge.)

MINISTRY OF DEFENCE
Main Building, Whitehall, London S.W.1
Telephone: Whitehall 7022, ext.

Our reference
Your reference

Our policy is to play down the subject of UFOs and to avoid attaching undue attention or publicity to it. As a result, we have never had any serious political pressure to mount a large-scale investigation such as Project Bluebook. Indeed, the matter has been raised only once in Parliament in the last 5 or 6 years, and then only in a perfunctory way.

We know from statements made to us by serving officers and also former serving officers and officials, inside the MOD, that many files exist which have never been released to the public. We also hear from Lord Peter Hill Norton, Commander of the Fleet (MODs highest position possible), that in his opinion there is a cover-up and UFOs are of defence significance. He states that **films and evidence of UFOs are being withheld by the MOD.**

A MOD ruling from 1967 meant that **all UFO reports would be preserved in the Public Records Office** for viewing by the public, because of renewed interest in the subject of UFOs. However if the seven secret MOD departments were investigating UFOs back then, **where are the departments files relating to this?** No files are available or due to be released for these departments. It is as if they didn't exist and efforts to find out if these departments moved on to have new names have proved fruitless as this information is deemed sensitive and cannot be given out to the public.

We know that documents exist which have not been released to the UK public because these documents have been copied to the US government and have been released to US citizens under the **American Freedom of Information Act**. This release circumvented UK secrecy laws. Some of these documents show that UFO incidents have taken place on UK soil, involving American airbases. We also know that some of these bases have had overflights of UFOs, which subsequently interfered and rendered some of the **nuclear weapons stored on the base** inoperable, e.g. the 1980 Woodbridge / Bentwaters incidents. The mere fact that these weapons were stored in this US airbase on British soil is still a top-secret. (Proof of the nuclear aspect is available in a new book **LEFT AT EAST GATE** published by Michael 'O Mara books.) I have just secured my own evidence of the Nuclear aspect at Bentwaters by secretly visiting the site with a team of UFO investigators,

Readers should note that the proposals for a UK Freedom of Information act are clear in there being **no responsibility for the MOD to take part.** (Although it is my understanding that some MOD departments feel that they may be included so are preparing anyhow). I feel this is an unacceptable situation and would only support a total government and military-wide Freedom of Information act.

When looking at the files which follow, remember that whenever the MOD have been questioned on the subject of UFOs they have given a statement that UFOs are of "No Defence Significance". Clearly the files show that UFOs were of defence significance otherwise they would not be investigating them at such a high level.

In this letter the MOD were writing to Project Bluebook and state that UFO investigations were carried out as part of the MODs Air Force Technical Intelligence Dept. Obviously the MOD, whilst writing to another Military unit, were prepared to admit to their investigations at a high level which is a point they would not admit publicly. This then shows that investigations went on at a high level than those of Airstaff 2a, the former office of Nick Pope.

MOD admit to a policy of playing down the subject of UFOs. In doing this they avoid public or political pressure to mount a large scale - probably **public** - investigation on UFOs. It is not the military's right to make decisions that will affect politics. The military are supposed to be under the control of government and not acting in such a way as to dictate government policy.

2. Nick Pope was asked directly about Provost and Security Service and RAF Rudloe Manors involvement in UFO investigations. He denied any knowledge of these facts although he was in office at a time when Kerry Philpott (Nick Popes successor) alleges that they sent reports to him. Work that out!

Here we see a file letter showing that

CONFIDENTIAL

ROYAL AIR FORCE POLICE
SECURITY INVESTIGATION

To: Deputy Provost Marshal
Headquarters Provost & Security
Services (United Kingdom)
Government Building,
Braynard Avenue,
Acton, W.3.

S/C. 456/62/CIS
PLANNED, CRT

UNIDENTIFIED AERIAL PHOTOGRAPH BEEN AT
TRIAL, T. W. H. H. H. H. H.

INVESTIGATOR

1. No. 4031777 SGT. ROYCE, J. J., Headquarters Provost and Security Services (U.K.)

SO WHAT FILES ARE WE
TALKING ABOUT ANYHOW.....

1. "Project Bluebook" was the USAF public project to investigate UFOs using air force resources. Its leader, Dr J Allen Hynek left the project in disgust saying that it was keeping the best and most unexplained records away from the Bluebook files. Subsequently he stated that the conclusions of the report, which were that most sightings could be explained and that no evidence of extraterrestrial life could be determined, was at the very best a cover-up of the highest order. (There were secret level investigations going on behind Project

Provost & Security Service were investigating UFOs and that the files were classified as CONFIDENTIAL (a little hard to see on this photocopy). We also see that the MOD sent out officers to interview witnesses which may give rise to certain cases of "Men In Black" or "Men from the Ministry" visitations that have been reported by witnesses over the years. The MOD have denied that they ever sent out officers to visit witnesses. Nick Pope in his book **OPEN SKIES CLOSED MINDS** very firmly states the opinion that no MOD officers went out to visit witnesses and believes that these "MIBs" were just oddball characters - "Walter Mitty characters" who "dressed up" to scare witnesses and were nothing to do

with the MOD.

In fact this file gives the name of the officer who went out to interview the witness and page 2 of the report (which is not included in this file) goes even further into the fact that officers visited her on a few occasions. The witness, Mrs Ann Henson has now been visited by UFO researchers who confirmed that she was "advised" by the MOD to not talk about her sighting to press or public and not to discuss the MOD

RAF Rudloe Manor. Another interesting feature about RAF Rudloe Manor is that most of its facilities are housed underground in a labyrinth of 35 miles of tunnels. I have never heard any rumours of aliens down there, though - just a lot of intelligence work and war time control operations.

3. MOD have made statements that no UFO reports were classified secret yet in this Intelligence report, from one of the Secret UFO investigation units, we see the

The tone of this statement shows us that these secret investigators would pass on recommendations to civil servants in the publicly known UFO reporting departments (Nick Popes office) enabling them to make statements fit for public consumption. In this way the secret units could operate their investigations without being hindered because the names of these departments were hidden from view by the "front of shop" Whitehall MOD office writing replies to people.

AIR 20/9320

SECRET

3A.

D.D.I.(Tech)/6290/

S.6 (Mr. West)

With reference to your letter minute 511/S.6 dated 11th April, 1957, it is regretted that due to an oversight the West Freugh, Wigtownshire incident was listed twice; once as a newspaper report and once as a radar sighting under investigation. The error in listing the incidents means that there were fifteen reports this year. The newspaper reports were, in fact, only two and not three as given.

2. The four reports, amplifications of which you require, are as follows.

Radar sightings under investigation

- (a) A report was received from Royal Air Force Church Lawford on 26th March, 1957 of a sighting of an unusual nature. The object moved at a speed timed as exceeding 1400 m.p.h. This in itself was unusual as the object had accelerated to this speed from a stationary position. No explanation has yet been found for this sighting but supplementary report, including a copy of the radar plot, was requested and has been received from Church Lawford this afternoon.

4. It is unfortunate that the Wigtownshire radar incident fell into the hands of the press. The two other radar incidents have not been made public and reached us by means of official secret channels. We suggest that S. of S. does not specifically refer to these incidents as radar sightings. We suggest that in answering the original question S. of S. might reply:-

"Of the fifteen incidents reported this year ten have been identified as conventional objects, two contain insufficient information for identification and three are under investigation."

5. If supplementary questions are asked the S. of S. might wish to refer to the answer given to Major Wall on 4th May 1955. Reports received since that date do not suggest that there need be any change in the answer given at that time.

investigation. She kept to this silence for 30 years until she was contacted by researchers. My question is how many other witnesses have been "advised" not to talk by the MOD in this fashion?

Provost and Security Service is the department which has been rumoured for many years as being involved in UFO investigations and was first exposed in such a role in Timothy Goods book *Above Top Secret*. I featured my investigations into Rudloe Manor Alien Encounters a few editions ago and now it is clear the importance of this and other departments in the whole UFO investigations network. Provost & Security Services are based at

word SECRET clearly used.

The report describes an object which was moving at speeds EXCEEDING 1400mph. No explanation could be found for the sighting. The speed was faster than any aircraft of the day. Officers who were experienced in radar made the statement that the reported contacts were not those of any conventional aircraft.

We read that the MOD were unhappy to see reports of UFOs getting to the press and deny that the sighting was not backed up with radar evidence. This is clearly disinformation being fed to the British Public - proof again of a cover-up.

OTHER FACTS

Some of the other documents available in UFO files include radar tracking of objects by the military. One incident which occurred in West Freugh which was forwarded to secret department DDI Tech was that of a set of five objects, which were measured to be as big as ships, which proceeded from 50,000ft to 70,000ft. A second radar was switched on and confirmed the objects at this height. The considered expert opinion of the military was that these objects were indeed unidentified and of an unknown type and origin. The radar operators were able to rule out the possibility of radar interference or that they may have misidentified charged clouds etc. This makes the incident very worthy of note.

Other incidents include similar radar tracks of objects which travelled at speeds in excess of 4000 MPH. These speeds are faster than any known aircraft can achieve today, let alone back then in the 1960's!

THE MISSING FILE

In and around March 1995 the file which contained so many of these revelations about departments in the MOD investigating UFOs went missing after Nick Redfern was filmed for a documentary called *Out Of This World*. The official explanation for the missing file was that it has been misfiled. We suspected otherwise but it took the intervention of MP Ieuan Wyn Jones asking a question in the House Of Commons to bring the file back. The file was returned two days after the question being tabled. Still the excuse that we were given was that it had indeed been misfiled - this was after one year of looking for it and one major file search (known as a census).

In a visit to the Public Records Office in 1996, myself and Richard Conway and Chris Fowler were told by Vivian Bales that the file was probably with the MOD as they often recalled sensitive files which they may have released information in by mistake. It was her opinion that this is possibly what had happened. We did not prompt her for

20 June 1965

Mr Langton has shown us your letter of the 15th June about Project Blue Book.

In the United Kingdom, the Air Force Department of the Ministry of Defence has the primary responsibility for investigating reports of UFOs., and the reasons for this allocation of responsibility are exactly the same as in your case.

We investigate every case reported to us, and we use every assistance, civilian as well as military, available to us to identify a particular object. For example, we have frequently used the resources of Kodak Ltd., to examine photographs, films and equipment submitted to us. We do not, however maintain a special scientific staff for this purpose. It is normally handled as part of the routine work of our Air Force Technical Intelligence department. Unlike you, however, we do investigate single-observer sightings. Our results over the years are in line with yours viz. in some 90% of cases investigated, we are able to make a positive, rational identification, in 10% we are unable to do so because of insufficient data, and in no case have we unearthed any evidence of extra-terrestrial origin.

Our policy is to play down the subject of UFOs and to avoid attaching undue attention or publicity to it. As a result, we have never had any serious political pressure to mount a large-scale investigation such as Project Blue Book. Indeed, the matter has been raised only once in Parliament in the last 5 or 6 years, and then only in a perfunctory way.

The specific answers to your questions are as follows:-

- a. No
- b. No
- c. Yes, a considerable number
- d. We investigate about 70 case a year but there are others which are not reported to us, although sometimes reported in the newspapers.

We should be delighted to discuss the matter with Dr Hynek when he comes to London and no doubt you will let us know in due course when he will be here.

Lieutenant Colonel John F. Spaulding,
Civil Branch,
Community Relations Division,
Office of Information,
Department of the Air Force,
Washington DC
U.S.A.

this explanation and she gave it to us as an unofficial comment. It seems she may have been telling the truth as we shall see.

I didn't buy the official missing file story so went on my own search for who might have had the file at the MOD. I used contacts I have in government to give me a lead about where inside the MOD where I might find an answer. I was given the details of a small department which is housed inside the Metropole Building in

Northumberland Avenue. This is the Central Records Management Unit and after speaking to the staff there I was put onto the Deputy Departmental Records Officer, Mr I D Goode. Mr Goode checked his records and confirmed that he had records on the file being inside the MOD and sent to a department in November of 1996. He could not tell us which department because he said this was against the rules, but confirmed to me that by his records someone at the MOD had

happen when someone asks about UFOs or writes to government officials that a clamp down on details happens and you get a reply from Kerry Philpott? Why is it also that government denies that many other departments investigate UFOs and then send their watered-down conclusions through Kerry Philpott and Airstaff 2a for dissemination to the public. Well I think the answer to that question is obvious from the above.

the file. I asked him to be very sure of what he was saying and he re-confirmed the details to me verbally and then by letter.

This proved that an MP and members of the public were being lied to about the whereabouts of this file. Both the MOD and Public Records Office had assured us that they had carried out proper checks on the whereabouts of this file. If they had then surely they would have found out that it was booked to MOD. The fact that we were not told which department was dealing with the file was proof that there was some collusion behind the scenes.

The final part of the saga is that an official clamp-down has come into force, and now we are told by Kerry Philpott of the MOD official UFO cover-up department that Mr I D Goode was in fact wrong and had made a clerical error and the records he had should have read Nov 95. This letter should not have come from Kerry Philpott anyway - it should have come from I D Goode who had made the statement to me in his previous letter.

Why does it always

"B" Statement of CHIVERNOR, D. H. SMITH.
"C" Diagram compiled by MISS A. HENSON.

INVESTIGATOR

1. No. 4031777 SGT. SMITH, J. J., Headquarters Provost and Security Services (U.K.)

ORIGINATING INFORMATION

2. Letter addressed to R.A.F. CHIVERNOR from MISS ANNE HENSON, CHILLISTOD FARM, TRULY, TAUNTON, describing an aerial phenomenon seen at night. A copy of Appendix "A" was passed by hand to the Investigator on 24th October, 1962, by Wing Commander C. M. GIBBS, D.F.C., D.C. Flying Wing R.A.F. CHIVERNOR.

INVESTIGATION

3. CHILLISTOD FARM lies 4 miles South West of TAUNTON and is in a fairly isolated position.
4. MISS ANNE HENSON, aged 16, said Appendix "B", that on 30th August, 1962 between 10.30 p.m. and 10.55 p.m. she opened the window of her room which faces N.W.E. and saw a diminishing star-like object with what appeared to be red and green coloured flames coming from it. It was slightly larger than the average star and appeared to be round. After about 2 minutes it became very small and she could only see it with the aid of binoculars. She was quite sure that it was not the navigation lights of an aircraft because she had seen these many times and could recognise them immediately. She heard no sound at all. She told her mother and two of her brothers who looked at the object and, after some discussion, said that it must be a star. She made an entry in her diary concerning the matter. She did not look for it again until 17th October, 1962, when she saw the object again which was partially obscured by fog. With the aid of binoculars she compared the object with several stars and noticed that the stars were silvery white whereas the object was red and green. She observed the object as the fog cleared and saw that it did not flash as does an aircraft's navigation lights but was both red and green at the same time, the colours being mixed together as if something was burning and giving off coloured flames. Near to and above the object she noticed another exactly similar but smaller object. She lost sight of both objects when the fog closed in. The following night 18th October, 1962 she saw both objects at 7.30 p.m. She noticed a difference in the colour of the original object which was now emitting green and orange flames in the same way as before. She took a "bearing" with her compass and noticed the object to be at 40° MAG, the second object was at 20° MAG. At 9.47 p.m. she again took a bearing and found that the original object was now at 70° MAG and was now grey-white in colour. The second object was now at 60° MAG and appeared green in colour. Both objects were still visible when she retired at 10. p.m.

One thing is now clear, we have the ammunition to fight the government over the files of these seven secret departments who files do not appear in the Public Records Office. It has even been hinted to me by one

insider that if any files for these departments did exist that they would not become public because most of these files are Defence Intelligence orientated and these types of files rarely get released, if at

all! My source also tells me that these files would most certainly be screened for public and our departments would probably come into that category. So a fight, it will

D.D.I. (Tech)/G.290/3/

Unidentified Objects at West Freugh

1. On the morning of April 4th radar operators at West Freugh detected unidentified objects on the screens of their radars. A summary of this incident is given below.
2. The object was first observed as a stationary return on the screen of a radar at Balscalloch. Although its range remained appreciably constant for about 10 minutes its height appeared to alter from about 50,000 to 70,000 ft. A second radar was switched on and detected the "object" at the same range and height.
3. The radar sets used were capable of following objects automatically besides being manually operated. The information is obtained in the form of polar coordinates but it can be converted to give plan position indication together with heights. This information can be fed into a plotting board which displays the position of the object by means of an electronically operated pen, while the height is shown on a meter.
4. The unidentified object was tracked on the plotting table, each radar being switched on to the table in turn to check for discrepancies. After remaining at one spot for about ten minutes the pen moved slowly in a N.E. direction, and gradually increased speed. A speed check was taken which showed a ground speed of 70 m.p.h., the height was then 54,000 ft.
5. At this time another radar station 20 miles away, equipped with the same type of radar, was switched on. A echo was picked up at the range and bearing given and the radar was "locked-on".
6. After the "object" has travelled about 20 miles it made a very sharp turn and proceeded to move S.E. at the same time increasing speed. Here the reports of the two radar stations differ in details. The one at Balscalloch tracked an "object" at about 50,000 ft at a speed of about 240 m.p.h. while the other followed an "object" or "objects" at 14,000 ft. As the "objects" travelled towards the second radar site the operator detected four "objects" moving in line astern about 4,000 yards from each other. This observation was confirmed later by the other radars, for when the object they were plotting passed out of range they were able to detect four other smaller objects before they too passed out of range.
7. It was noted by the radar operators that the sizes of the echoes were considerably larger than would be expected from normal aircraft. In fact they considered that the size was nearer that of a ship's echo.
8. It is deduced from these reports that altogether five objects were detected by the three radars. At least one of these rose to an altitude of 70,000 ft while remaining appreciably stationary in azimuth and range. All of these objects appeared to be capable of speeds of about 240 m.p.h. Nothing can be said of physical construction of the objects except that they were very effective reflectors of radar signals, and that they must have been either of considerable size or else constructed to be especially good reflectors.
9. There were not known to be any aircraft in the vicinity nor were there any meteorological balloons. Even if balloons had been in the area these would not account for the sudden change of direction and the movement at high speed against the prevailing wind.
10. Another point which has been considered is that the type of radar used is capable of locking onto heavily charged clouds. Clouds of this nature could extend up to the heights in question and cause abnormally large echoes on the radar screens. It is not thought however that this incident was due to such phenomena.

Law R. Williams

Thank you for your letter dated 14 April 1997.

I can confirm that AIR 2/16918 was in MOD's hands last year and was returned to the Public Record Office on the 9 November 1996.

I understand that the file was originally released, in 1994, in a sanitised form. It is established practice, when sanitising files, to ensure that pages thus affected are clearly identified, for example a photocopy of a page with sensitive information excluded would be marked "retained in department under Section 3(4)" or something very similar.

Following a change of policy in 1995 it was decided, in light of the Open Government initiative, our early concerns were no longer valid and previously excluded information could now be released. With the file already in the public domain the extracts were transferred to the PRO on 22 November 1995. Any subsequent action to re-establish extracted papers, either by re-inserting or attaching to the original file, rests with the PRO.

On the general question of extraction from files departments can remove papers for reasons of sensitivity prior to the opening of files. But once the file is open papers can not be removed, whatever the reason.

So far as your final question is concerned I regret that I can provide no further information as to what happened to the file after its arrival in the MOD.

robably have to be!

SUMMARY

What we have here is clear evidence of the Ministry of Defence being involved in playing down and covering up UFO sightings. UFO reports were classified as secret and details probably were not meant to be released to the public. Procedures were in place for the secret departments to lie to the public about conclusions of their investigations through the front of the Whitehall civil servant departments. We also know that the enormity of the sightings that were being reported back then show that UFOs were of extreme defence significance. Lastly we now know that the MOD were sending out officers to interview witnesses and these said same officers were trying to silence witnesses. It all fits together nicely.

What we now need to know is where did those departments go and where do they operate from today. We also need to know where all of the investigations files from the many years of UFO research these departments have carried out. We are preparing to find these departments and to ask for the files. We will bring you further updates of any information we gather. Readers will be very interested to read about even more of the revelations in a new book by author Nick Redfern which will be released in September. It is called "A Covert Agenda" and will be published by Simon & Schuster.

Space restrictions in the magazine mean that we cannot include all the papers which make up the file bundle but if anyone requires the full documents associated with this article please send a cheque made payable to Truthseekers Magazine for £2.00 and we will send you the photocopied bundle. Address TRUTHSEEKERS, 25 Upper Canning Street, Ton-Pentre, Mid Glam, CF41 7HG or EMAIL: truthseekers@celtic.co.uk. We will be publishing these documents on the internet soon.

'Majestic' & The Web of Intrigue.

By Darryl Smith

By now everyone who has more than a slight interest in UFOs know about the top secret research group known as Maj, Majic, MJ-12, Majestic, and Majestic-12. The reality of the group is shrouded in myth and mystery but one thing is certain the events and people that surround this elusive group are still effecting the core of the UFO subject today.

Initially the original MJ-12 papers were sent to Jamie Shandera in an envelope and posted from Albuquerque, New Mexico. The documents came on a roll of undeveloped 35mm camera film. Jamie Shandera, Bill Moore and Stanton Freidman spent a great deal of time and effort researching the documents and research is still ongoing today.

A number of researchers have through the executive order number on the document come to the conclusion that the documents are fake. That's fine and after considering the evidence I would agree, but this doesn't mean that the contents are fake and that there was never a group known as Majestic.

The supporting MJ-12 documents help in the validation that probability wise there is a high chance that MJ-12 existed and still might. The supporting documents are the Cutler/Twinning memo, and the Truman document.

There are other documents that mention the MJ-12 group these are an alleged FBI Airtel, A alleged CIA letter from MJ5, The possible coding on Bob Lacer's tax slip, A teletype referring to a UFO recovery event, the so called Ice document, and the now released Special Operations Manual.

This manual was received by Don Berliner a UFO researcher on a roll of 35mm film (sound Familiar), the document is eighteen pages and is titled " Extraterrestrial Entities and Technology Recovery and Disposal ".The documents dated April 1954.

The document is basically a

**Photo: Daryl Smiths' photo
cannot be shown here in full for
reasons of National Security. ©**

training booklet for new members of Majestic groups showing how and what to do. This document has been circulating amongst American researchers for over two years!

Some of the contents detail the different alien species through to breakdown of the type of craft and the ways of recovering both.

So far this is the main stay of evidence, but there are also many accounts of testimony from people who have had dealings with or were in this covert group.

THE PLAYERS

Timothy Good was the first to publish the original MJ-12 documents in his book Above Top Secret (Grafton Books). Tim claims that he received his set of documents from a CIA source in America. Now this is where it gets interesting.

We now know that Bill Moore was an active agent for an intelligence agency because at a MUFON conference he admitted passing a UFO researcher known as Paul Bennewitz false information (misinformation). He claimed he did this in the hope of getting genuine material off of his contacts in return.

These probably came from the AFOSI (Air Force Office Of Special Investigations) through Richard Doty. (Doty was an agent that met with Bennewitz and who has also had some dealings with Linda Moulton Howe when he showed her a MJ/ presidential briefing paper. He also

Photo Left: This is a cover page of a document purported to be from Majestic Twelve group. One wonders how such secret documents could ever be leaked.

- Parapsychologist/Director of Psi-tech, CIA, DIA.
- ⇒ FALCON - C.B.Jones - Parapsychology/psychotronics, Navy Intel, DIA, MUFON (1989) As a consultant.
- ⇒ PENGUIN - John Alexander - Former Army Intel on the board of Psi-tech.
- ⇒ PELICAN - Ron Pandolphi - CIA.
- ⇒ BLUEJAY - Dr Chris Green - CIA.
- ⇒ RAVEN - Dr Jack Verona - Liaison between Capitol hill and Los Alamos.
- ⇒ SEAGULL - Bruce Macabee - Photographic expert, MUFON consultant, alleged member of the CIA, MUFON state director 1975.
- ⇒ UNKNOWN - Bill Moore - Alleged intelligence agent.
- ⇒ Also possibly a British agent?

As you can see by the above list the people involved in this web of disinformation are well informed people holding high and respected positions in virtually every aspect of Government and Intelligence, now what does this suggest to you.

Before releasing his set of MJ-12 documents in Above Top Secret, Tim Good travelled to America for a meeting with Bill Moore. The idea was to compare both sets of MJ-12 documents.

Now remember Tim Good was the first to publish the papers! Bill Moore has now admitted to tampering with the documents, but his were the same as the documents in published in Above Top Secret. How can this be if Tim published first and Bill tampered with his? Tim's must have been tampered with as well.

It seems to me that their meeting was more than a comparing of documents, and that they were probably working together. So was Bill Moore Tim's CIA contact?, and Is Tim Good more involved than is generally thought?

You only have to look at the list of Aviary members to see that he would fit along nicely.

Remember that these are the people infiltrating and influencing every aspect of UFO research and organisations. You can see this by noting how many of the above are involved with MUFON. Also remember APRO, and how they were infiltrated.

allegedly leaked false UFO reports while in AFOSI at Kirtland AFB).

This information was a contribution to the effect of Paul Bennewitz having a Mental breakdown at a time when Paul was obtaining some quite impressive data and films of UFOs over the Manzo weapons storage area. Believe me this is not a coincidence.

Bill also has working with him a group

called THE AVIARY. This consist of high ranking government and intelligence community people in an effort concerning psychic functioning and UFOs.

Some of the Aviary are:

- ⇒ THE SPARROW - Richard Doty - AFOSI agent.
- ⇒ CONDOR - Robert M Collins - Former Captain USAF.
- ⇒ OWL - Dr Harold Puthoff -

Executive Briefing (Memo)

Yesterday R2 requested briefing on Project "A". In particular, he wanted updated info from [REDACTED] MJ2 advised that that info was not available to P2. Apparently, White House requested info because of large volume of FOIA requests. Can't seem to make those fools realize [REDACTED] info is not available for any dissemination, per EO 11652, regardless of who requests info. Contact T-2P and see if he can assume custody of the matter.

Don't allow AF to evaluate IDENT info. They may open up a little too much. KEND-2 can assist to some extent.

PJS

TOP SECRET

HANDLE ON STRICT
NEED-TO-KNOW BASIS

Photo Above: Documents leaked to researchers like the one above have now appeared on the Internet. There is not a day goes by now without new "leaked" documents appearing on the Internet.

In my opinion probably no photograph, video film or any other kind of UFO related material can be labelled real or fake. This is because some of the most influential researchers, the very people we look to for answers, the ones who have worked on this evidence work for the so called enemy.

Because of this complex web of intrigue it would always be hard if not impossible to authenticate any of the MJ-12 material, what can be proved is the link between these people, the UFO subject and Government/Intelligence agencies.

For me the participation of these people are enough to prove the reality of the UFO phenomenon, as for the details, at this stage your guess is as good as mine.

THE WILMSLOW UFO - NEW REVELATIONS.

By NICK REDFERN

'I was checking property at the rear of a large block of shops when I heard a high-pitched whine. I turned round and saw a greenish-grey glow in the sky about 100 yards from me and 35 feet in the air. I was very scared and for a few seconds I was rooted to the spot. I just couldn't believe my eyes. The object was the length of a Bus, about 30 feet long and 20 feet wide. It was elliptical and gave out a greenish-grey glow. It appeared motionless and there was no impression of rotation. The object remained stationary for about five seconds then without any change in the whine it started moving at a very fast rate in an East-South-East direction. It disappeared from view very quickly. I have always been sceptical about flying saucers and life in outer space, but there is no other explanation. I checked with Jodrell Bank and Manchester Airport to see if they could explain it, but they couldn't. So I sat down and wrote 'my report.'

Those were the words of twenty-eight year old Police Constable Colin Perks who, in the early hours of 7 January 1966, was confronted by an unidentified flying object whilst patrolling the village of Wilmslow, Cheshire.

Despite the fact that P.C. Perks's encounter had occurred at the beginning of 1966, the case remained curiously out of the hands of the Press until early March of that same year. Inevitably the newspapers had a field day.

'BEG TO REPORT, SIR. ONE FLYING SAUCER,' reported The Daily Mirror; whilst The Sun stated: 'I OBSERVED ONE FLYING SAUCER ON MY BEAT.'

'I must admit I was surprised,' said Constable Perks's superior, Superintendent Hugh Kenworthy. 'But I know P.C.

Perks is a reliable, mature officer and a trained observer, so I sent the report off to the Chief Constable of Cheshire.'

At a public level, that much was known conclusively. In January 1997, however, this decades-old UFO encounter took on a new significance when I located at the Public Record Office at Kew, the original copy of the Ministry of Defence's investigation into P.C. Perks's sighting, which had quite literally been declassified

only days earlier. Its contents made for illuminating reading, to say the least ...

First, the file in question (which was almost twenty pages in length) had been classified at 'Restricted' level and had attracted the keen interest of the Ministry of Defence's Defence Intelligence Staff (DIS).

Second, and more important, the released MOD papers showed that at the time of its occurrence the media had latched onto only a small fraction of the complete story. I dug into the aged and fading papers.

The first entry within the file was a two-page report filed by P.C. Perks on official Cheshire Constabulary-headed note paper on 7 January 1966. Broadly speaking, this account tallied with that related above and given to the Press some eight weeks after the event; however, the complete file contained much more ...

I was also able to locate a one-page document (stamped 'Confidential') from Manchester Airport to the Ministry of Defence which outlined P.C. Perks's encounter. This, of course, agreed with P.C. Perks's statement that he had indeed spoken with Manchester to see if they could offer an opinion.

I was most intrigued to see that on receipt of the report from Manchester Airport, the Ministry of Defence circulated copies to no less than three departments: S4F Air (the earlier 'version' of the office in which Nick Pope worked); the Air Force Operations Room; and a little-known (and highly-covert) body within the Defence Intelligence Staff known as DI61.

Most interesting was the fact that whilst S4F Air and the Air Force Operations Room received one copy each

of the report from Manchester Airport, no less than four copies were channelled through to the Defence Intelligence Staff ...

Meanwhile, on 8 January 1966, Superintendent Kenworthy forwarded to the Chief Constable of Cheshire Constabulary the original copy of P.C. Perks's two-page report. From there, it was sent to the Ministry of Aviation, who in turn passed it on to the Ministry of Defence: specifically to DI61. On 1st February 1966, DI61 swung into action.

Considering the Ministry of Defence's current assertions that the UFO issue is one of little consequence, I was struck by the fact that on the morning of 1 February, a representative of DI61 travelled from Whitehall to Wilmslow specifically to interview P.C. Perks in an attempt to ascertain what it was that he saw!

More fascinating: the unknown DI61 'agent' accompanied P.C. Perks to the area where the UFO was seen, and made an 'on-site' inspection of the immediate vicinity, noting that on the morning after the sighting 'some glass like substance was found on the adjacent car park'.

Whilst DI61 concluded that this was not, in all probability, related directly to the UFO encounter of P.C. Perks, I could not

fail to note the overwhelming thoroughness of the entire operation. And as DI61's papers showed, the division had gone out of its way to determine if anything unusual had been tracked on radar at the time of the sighting. And what of the conclusions of DI61?

'On the evidence available to Tech Int (Air) it is not possible to arrive at any concrete conclusion,' wrote

Flight Lieutenant M.J.P.H. Mercer of DI61 in a 'Confidential' report of 18 February 1966. It continued: 'This is always likely to be the case with such "one man" sightings. If it were possible for a scientific investigation team to be present at the instant of sighting these "unknown" phenomena would probably be quite easily explained. On the information available it would be unwise if DI61 speculated on possible explanations. However, any further reports of sightings in this area would be

welcomed, particularly from responsible people like Constable Perks.'

Essentially, that was the file. However, having reviewed fully its contents, I am now able to make a number of significant observations. First, the very fact that the investigation into P.C. Perks's encounter was undertaken by the highly-covert DI61, makes a mockery of the Ministry of Defence's publicly-asserted claims that S4F Air was the chief MOD body responsible for investigating UFO encounters in the 1960's. Second, DI61's interview with P.C. Perks, and their on-site investigation of the area in which the UFO was seen, has deep implications for yet another aspect of the UFO mystery - that of the 'Men in Black'.

For years, the UFO research community has been filled with bizarre (and until now) unverifiable tales of dark-suited individuals travelling about the UK, flashing Ministry of Defence identity cards and warning UFO witnesses to keep silent about what they have seen.

Whilst many such accounts have been largely discounted, I submit that with the above-information surrounding DI61 now in hand, we need to look at some of those same Men in Black reports in a new light. I am unable to state firmly as to whether or not DI61 requested P.C. Perks's silence; however, I can state with confidence that until I located a copy of the official file at the Public Record Office, DI61's involvement in the Wilmslow event had remained a matter of official secrecy for more than three decades. The Men in Black-DI61 controversy has only just begun ...

Authors note: Public Record Office file number: AIR 2/17983. Crown copyright exists.

Triangular UFOs

Kirtland Airforce Base 1997.

Photographs of Triangular Black shaped aircraft are coming forward more and more these days. The above photograph was taken at Kirtland Air Force base by an anonymous photographer and was put on the Internet. It may prove to be a fake, but the two shots (shown middle of page) were taken in Lancashire near British Aerospace Warton. Warton has long been accused of developing triangular shaped aircraft because of so many sightings in the area. Have the British military designed the perfect triangular aeroform?

WIERD CORNER...

This photograph was sent anonymously to UFO researcher Nick Redfern on the 27th June 1994. The envelope it was sent in was postmarked Wakefield, West Yorkshire. The "alien" looks like a cross between a Teenage Mutant Ninja Turtle and Scooby Doo with maybe a touch of Doctor Who-style baddie in there too. Perhaps the editors of this magazine will all be humbled when this race of aliens are the first to make mass landings... NOT. If you want to own-up to this please send your excuses to the magazine address.

THE YIN AND THE YANG OF CROP CIRCLES, ETs AND FLYING SAUCERS

AN INTERVIEW WITH STEVE ANDREWS

Interview by Alan Craw, of Cyrkel
Spynn magazine Sept/Oct 96

Craw Says: Have you worked for previous bands, and could you tell us about your musical history?

Steve Answers: I've written poems and songs since I was in high school. It was just a natural form of expression for me in a creative sense, I suppose. On the local (Cardiff) scene I have fronted various bands, e.g. Flowers of The City and Venusian Priests, but unless there are decent amounts of money coming in for your efforts, it's very difficult to keep a band together, for a whole host of reasons, and anyone who has been in a band will know what I mean. I have been a busker at other times too, but it is not something I enjoy doing. Recently I was involved with a band project with "King Arthur", called appropriately, "King Arthur and the Travelling Court of Camelot", and we recorded a set of songs including my well known "King Arthur's Coming," and "Land Of Our Future", which is recorded on my new album "From Venus With Love" (M+E 359).

CS: Your music is supposed to be heavily influenced by paganism, ecology and nature - understandable since you are a Druid - but what do you think attracts you to these?

SA: I grew up with a passionate interest in and love for nature, and spent a lot of time as a child investigating fields and woodlands, rivers and streams, ponds and puddles, hedges and ditches and all the other wild places I could discover and find life in. I am still like this today, and often go on country rambles. An interest in paganism and ecology followed on naturally (pun intended!). Actually I don't believe in the "paranormal" or "supernatural" because I think that these phenomena are all part of nature that we are rediscovering.

CS: Also, could you tell us a little about your interest in David Icke's beliefs and literature?

SA: I am not saying that David's work is 100% whole truth, and nothing that I am claiming that he is presenting cannot be found elsewhere, but what I am saying, and what does attract me to him, is that he is standing up, against all the odds, to deliver conspiracy theory materials and answer questions on this information in the public arena.

Where others have feared to tread he has trodden, and he has brought several issues to the public debate that have been suppressed and hidden by the mainstream media. There is so much information flying around about UFOs and Secret Government dealings and plans etc., that the more people who discover this stuff the closer we can get to the truth. I am sure that David is planning a huge role in this. To really grasp what he is saying, you will need to read one of his books which explain how and why he reached the conclusions he has, and why he is prepared to deliver this to the world. I understand that at the moment he is conducting a successful tour of America, and workshops too, and I can only suggest that people get to see him when he is back over here in the UK and question him about his tours.

*"Steve, The Most Lendgandary
Person from Cardiff" - Chris Fowler.*

MUSIK

STEVE ANDREW'S PERSPECTIVE

I have come up with what I believe is a new theory to explain further the mystery of UFOs and their relationship to crop circles and to point researchers in the direction of a solution.

Many readers will be aware of the ancient oriental system of the Yin and Yang forces, which govern the universe and the 'Chi' energy currents, which are used in acupuncture, in oriental diagnosis, martial arts and for a whole range of lifestyles based around an understanding of the rules of the game. The key-word to Yin/Yang philosophy is balance and this philosophy teaches us how to achieve this as well as what signs to look for when the balance is out. It is even applied to great effect in nutrition and dieting in the *Macrobiotic* Way of eating and drinking.

In UFOlogy it is well-known that UFOs as well as crop circles are often sighted in areas where ley-lines run or intersect and these lines of energy (or chi). Ley lines form a grid throughout the body of the planet and throughout the rest of the entire Cosmos connecting everything together in an immeasurably vast ecosystem of energy. There is plenty of evidence which suggests that ancient civilisations and cultures on Earth, including fabled lost ones such as the Atlantean, understood these laws and made use of this energy grid. Just as in a human body there are energy centres known as chakras, there are also equivalent chakras in the body of the planet.

For many thousands of years this world has been run by men and their patriarchal religions, politics, science and culture of control, which sadly leads to the devastation we are all well aware of. It is a grim history of wars, violence, suffering and greed. It is a history of ruthless power-hungry dictators, empires, invasions and death. Some of its products and legacy are slavery, pollution, addiction, famine and disease. It is a veritable death culture that has made hell upon our beautiful heavenly planet Earth. The major religions all have aggressive, threatening, war-mongering gods such as Jehovah or Jahweh, who command obedience and punish ruthlessly those who dare step out of line.

These religions thrive on fear generated from the manipulated masses. The gods of these religions have been made in the likeness and image of their creators, the dictatorial power-crazed and greedy men, who have sought for so long to control

with their destructive priestcraft the lives of millions and to engineer the future of the world.

Now all of this comes under the male (or Yang) list of characteristics, so what about "herstory" and the Yin, feminine, matriarchal side to all this? In a word it has been carefully occluded and suppressed and the results are all around us today. The balance has been out in favour of the male Yang dominators for too long and now the swing must go towards the Yin.

In UFOlogy the vast library of contactee literature and UFO theories is absolutely riddled with more of this Yang/male dominator symbology and the very tools of its trade. We have abduction, rape by ETs, scientific probes and experiments on abductees, stories of invasions, galactic, - empires, federations and interplanetary star wars, we have ray guns, implants and other such masculine orientated stuff. We have "Ascended Masters", male names for ETs and suggestions that ETs were once "our gods" (not Goddesses!). Even the ETs that are seen are usually dressed in spacesuits with boots, buckles, emblems, zips and other more masculine forms of dress. We hear nothing much about Lady ETs in flowing feminine robes, attractive jewellery or pretty dresses. The majority of UFO cults and sects are run by men not women and these men are like the gurus of the world.

Women following this vocation, with the notable exception of Sri Mataji, Nada Yolanda and Ruth Norman a.k.a. Uriel, seem in very short supply. I wonder why this should be. Is it because the other planets are all run by males too, who pick men here to carry on their work? Is there no getting away from the horrors we find that male dominion has caused? I think not. Rather it reflects the interpretation of an unknown phenomenon by people, who have been conditioned by a culture ruled by men. Also there is the widely accepted tenet that "Like attracts Like" so maybe this is why we as a planetary race, are attracting all these macho alien types. I wonder.

Let us suppose for a minute that many of the ETs are here, like they say, because they are gravely concerned about the fate of humanity and our planetary home. Let us also suppose and consider that many can shapeshift or appear to us as we can

best comprehend them. I think this may well turn out to be close to the truth of the matter.

It is very significant that the most commonly reported extraterrestrial or interdimensional craft is a round or oval shaped object - the traditional flying saucer - or like a "rugby ball". It is significant too that we use the term "Mothership" for the main craft. These shapes are feminine or Yin by nature corresponding to the egg, the seed and the vagina. The Yang male favours phallic straight lines as found in rockets, guns, church steeples, modern architecture and motorways, whereas the ancient cultures appear to have been far more in touch with the feminine side building mounds like breasts, stone circles, and temples of a Yin design.

These were the ancient peoples, who constructed marvels like Stonehenge that today we can only wonder at. The Celtic races understood these principles too as do many surviving tribal peoples. Now when we come to the patterns of the formations appearing in crops we have circles, spirals and curved geometry. This is all much more Yin in its layout so maybe it is a symbolic language from a female viewpoint, that of the planetary spirit herself or the Mother Earth speaking. Maybe because we have all been so well exposed to patriarchal male dominator conditioning we cannot readily comprehend this and hence all the wild explanations and inconclusive theories? Maybe we need to try and decipher them more from this perspective? Perhaps it is the language of our Mother Earth speaking out in her distress? Maybe we, her children, have forgotten her symbolic language?

It is highly significant to note that the Native American tribes have kept the tradition alive of using the circle in their layout and design of many aspects of their culture. It is also equally significant that these people have prophecies concerning the arrival of the people from the sky. Their way of life was always geared towards balance and respect for the ecosystem unlike the ways of those who so savagely invaded and despoiled the Americas.

There is a well-known saying attributed to Hermes Trimegistus: "as above, so below", which, to me, means that our actions on Earth are meant to mirror those of the Heavens. As a race of planetary inhabitants we must present a very chaotic, violent and insane picture to those above so is it really any wonder we get back forceful

abducting ETs and the mutilation of cattle? Heavenly angels fear to tread here at present and this is borne out in many channelled messages regarding why they cannot land openly yet.

It is noted that abductions are absent from the ongoing Mexican flap scenario and that this is thought to be because of the friendlier attitude of the Mexicans to the UFOs. As below, so above!

In a balanced world there would be equal proportions of Yin and Yang, of the male and female. What we being asked to do is to find this balance, which would cause a utopian world and would allow us, as a race, to join other ET races in co-operation and communication not as we currently are as a problem and a danger.

Although there is a great need for power to be given to the Yin force I am not suggesting that we should have the other

extreme of a world ruled by women although this stage may well be required on the way to achieving balance for the future.

Much of the fascinating in depth channelled work received by Vee Van Dam speaks of plans for an androgynous physical race incarnating here in approximately 500 to 600 years in the future. Many have incarnated already as forerunners of this race and by their existence they are challenging the status quo of gender roles. The world run by men has prevented a hermaphroditic race of beings evolving by surgically altering those born with two sets of genitals at birth and has declared that people are to be male or female with males on top. There has been no peace for "in-betweens" and "genderbenders" in a system that seeks to divide. Actually everyone has both male and female attributes in their makeup to varying degrees and there is the idea that pure spirit is neither male or female bit androgynous in nature, the God/Goddess. A hermaphroditic race or one that changed from one sex to the other, naturally, as is the case already in some species

of life such as certain fish, would be an effective answer to the war of the sexes

and would express the Yin and Yang physically in the same body. This state would be called "an abomination to the Lord" of patriarchal religions and such beings would have been killed off so preventing the evolution of the divine hermaphrodite or androgyne.

The swing towards the Yin has been called the "re-emergence of the Goddess" and there are very many people being drawn towards Pagan religious viewpoints. Also there is much talk of and much work been done already on water-fuelled engines and motors for the future such as cars which are driven by water not petrol. This could well be the gift of the Aquarian waterbearer for the Age we are about to enter. Water is associated with the feminine side and all physical Life is totally dependent on it.

I believe a balanced future-world, here on Earth can be the case but it is up to each of us to play our part in helping to forward that balance by leaving behind the patriarchal past of death, destruction and fear and opening ourselves up to understanding with responsibility and respect the Yin and Yang energies of the Universe, always striving for the balance in our lives and our part in the Cosmos.

Footnote:- Any reader wishing to find out more about the channelled work received by Vee Van Dam concerning Spiritual androgyny and ET perspectives explained, along with much detailed information on astral projection, lucid dreaming, sorcery and many other subjects should write for a List of publications to:-

Vee Van Dam, 53 Hallett Way, BLide, Cornwall, EX23 8PG, enclosing SAE or IRC.

VIDEO REVIEW

"ABDUCTION" £13.99 By Empire Entertainments, Marlowe Bucks.

This video programme is the result of 3 years investigation and filming both in the UK and US.

There is nothing new about the abduction experience, it has always been an integral part of our planets history. What is news is the intensity of the experience and the theory that the worlds governments may be involved. It has been estimated that at least 3.5 million US citizens have experienced the abduction phenomenon. The UK figures are as yet unquantified, but one thing is for sure - they are increasing at an

alarming rate.

Some of the issues that are raised by the participants of the video are:

ARE WE BEING TURNED INTO A RACE OF HYBRIDS?

ARE WE BREEDING MATERIAL FOR ALIEN OFFSPRING?

IS THE GOVERNMENT INVOLVED IN SOME KIND OF NEW WORLD ORDER EXP-ERIMENT?

OR IS THE WHOLE EXPERIENCE A NEW STATE OF MIND/ CONSCIOUSNESS?

Part TWO of the video programme contains a live regression by three previously unknown British Abductee. Talking our for the first time. These regression sessions were arranged by Matthew Williams of Truthseekers Review. They were conducted by David Coggins, a hypnotist.

I feel that the regression session part of the video is the most informative piece of UFO video I have seen for ages as it is bold enough to allow the regression filming to run so that the viewer can get an idea of exactly what goes on and what is said during a regression. You could never do this on TV or any other format. This video contains a first! The people who took part in the live regression session were confirmed abductees from the Bristol area who had never had any form of regression or hypnosis beforehand. These people knew that they had been abducted without any hypnosis!

The production values on this video were very high and interviews were sought with the world leaders in Abduction research including David Jacobs, and Budd Hopkins but to name a few. Included also are famous case abductees such as Whitley Strieber and Roz Reynolds, as well as many other not so well known faces.

One of the producers on this video, Russell Heymann, has recently completed a very complex clinical standard course on hypnotherapy. He was present at all the regressions as a back-up to David Coggins. He believes that many people out there are experiencing strange encounters which could be classified as alien. His intention in part-producing this video was to give a wider look at the abduction phenomenon. He wishes now to look forward and help people overcome troublesome experiences in order to move on to better ones through his abilities in hypnosis.

State of the art computer graphics and special effects are also employed in the first half of the video. Both the computer animations artist and the video editor now work in Hollywood. *This video cost a bomb to make!* However, I think it was very much worth it. For the serious Ufologist this video is a must have!!!

The producers are looking for video footage of UFOs or any other strange things for their next video. If you wish to help or are prepared to be interviewed about your experiences please write with your story to:

BOOK REVIEW

ALIEN CONTACT - Jenny Randles, Collins & Brown Publishers, Price £14.99.

This book covers the last 50 years of Ufology. I am glad to see that there are still books out there which give an overview of the subject up to date. Jenny has done a very good job of chronicling the last 50 years and simplifying it in this book. There is enough information in this book to suit any keen starter in Ufology. I do not think that the book was intended for hardcore researchers, instead for beginners. In this respect I would say that this book is a great place to start. I would bracket this book as suitable to ages of 15 upwards.

Each year is dealt with in a

concise manner which makes each topic easy to digest.

I like the distribution of photos and sketches. It is so important to see sketches from witnesses, I feel, because it is these - more than artists impressions - that give us an idea of the objects from the eye of the witness.

Included also are a number of rare UFO photos and reproduced documents.

I was quite surprised to see that Jenny was favouring the Crop Circle phenomenon. There are some very nice photographs of crop circles in this book.

Jenny also explores both sides of the UFO/ Alien argument in that these events could be real or perhaps even imagined. She puts forward a convincing case for their being cultural-tracking in UFO cases, whereby popular icon images represented in the media, or world changing events will have a bias on the UFO and paranormal phenomena.

If anything I wish the book could have been bigger and perhaps used colour photographs as opposed to black and white. This is the only criticism I have. Other than that it's year by year layout makes it easy to reference some of the bigger events in UFO history.

There is nothing in the book which I feel would shock a younger mind so this would make an ideal present for anyone in the family.

Jenny is one of the UKs most published authors on the subject of UFOs. She is well respected and supplies contributions to TV programmes and documentaries.

Other books by Jenny Randles worth looking at:

Science & The UFOs by Jenny Randles and Peter Warrington.

Skycrash by Jenny Randles and Dot Street & Brenda Butler.

Out Of The Blue by Jenny Randles.

The biggest UK UFO Conference of 1997

Conspiracy
UFOs
Close Encounters
Abduction
Cover-up
1947 - 1997

1947 saw the advent of the modern era of UFO research. Kenneth Arnold reported the first UFO encounter over the Cascade mountain range and the news of an alleged crash at Roswell was just breaking.

The 9th BUFORA International UFO Congress will celebrate 50 years of global UFO research that has seen many changes from those early days to the realm of alien abduction and covert government activity that is at the heart of today's popular ufology.

At the same time, BUFORA will also be marking it's 35 years of careful and objective investigation of this most baffling enigma.

A line up of international speakers will present the latest UFO research and developments. Abductions, government conspiracy, MIBs, Close Encounters and much more will be discussed and debated; highlighting a phenomenon that will not go away...

1997

The Pennine Theatre is located at the heart of Sheffield and is literally a stone's throw away from rail and bus stations.

The venue is part of Sheffield Hallam University's modern City Campus complex and boasts some of the finest facilities in the UK. With an air-conditioned auditorium, state-of-the-art audio visual technology, adjacent café and restaurant will ensure your visit will be an experience not to be missed.

The exhibition area will include a wide range of books, videos and other UFO related material for you to peruse.

1997 CONFERENCE

Sunday, 26th October : 11.00am - 5.00pm
At the Exeter Hall, Kidlington, nr Oxford

The Modern UFO Era Started In 1947

Do We Now Have

EVIDENCE FOR ET LIFE?

Speakers Include

Graham W Birdsall - Prominent Ufologist, and Editor of UFO Magazine. Graham will be presenting the very latest information on the UFO scene. Hear the news on the Flying Black Triangle, and more...

Ananda Sirisena - One of the first researchers to reveal the startling Martian features, such as the Pyramids, and two Sphinx-like faces. NASA will be back at Mars in July 1997, what will be the latest news?

Busty Taylor - Researcher with over 40 years experience of UFO sightings. Many of you will know Busty's recent work in crop-circle research. What will be the news from the 1997 circle season?

Edward Ashpole - Science correspondent and author on SETI, and the possible UFO connection to SETI research. Edward has written books such as *The UFO Phenomena* and *Where Is Everybody?*

Contact International UFO Research will be presenting news of the very latest national and local UFO sightings.

Dealers will be selling magazines, books, videos etc.

Tickets- £8.00 on the door, or £6.00 in advance, available from:

Conference 1997 (XM)

Contact International UFO Research
PO Box 23, Wheatley, Oxford, OX33 1FL

NEW FROM NEXUS

CoEvolution

The true story of a man
taken for ten days to an
extraterrestrial
civilisation

One Monday in mid-February 1989, Alec Newald set off on what should have been a three-hour drive from Rotorua to Auckland in New Zealand.

He arrived in Auckland feeling tired and confused, but was even more confused to learn that Monday was now Thursday ten days later, and that he had no idea of what had happened in the meantime!

When Alec did retrieve his memories of those missing ten days, he realised his life had changed forever.

Early on in that fateful trip, while driving through a foggy mountain pass, Alec was whisked from the road by beings from an extraterrestrial civilisation.

What he learned and experienced during his stay with these friendly beings has profound implications for all of us here on Earth.

Soon after his 'return', Alec received strange visits from 'government scientists' wanting to know about his experience. Among other things, they were keen to learn what he had noticed about the capabilities of this alien race. Alec was uncooperative and soon found himself in 'hot water'.

It was obvious that these 'scientists' knew all about Alec's 'abductors' and expected they would return to Earth one day—soon.

Nexus, 55 Queens Rd, East Grinstead,

STOP PRESS...

I just got a good moving copy of the area51 footage from Switzerland, as published in Alien Encounters Magazine. I have captured some frames and cleaned them up a bit for you to see. These show a few more things than the ones you have already published.

Shots include...TV screenshot of alien in room. / Interrogator stands behind alien, left hand under chin of alien, / Right hand shines torch in aliens eyes. / Chest of interrogator can be seen - torch is higher up. Right hand interrogator has some sort of sponge pushed near the aliens face, this catches the light near the aliens mouth (it looks like something coming from the aliens mouth but is infact just shine off the edge of the sponge!)
